QUESTION 1

If an RSA Archer user cannot see an application that does not exist within the system, what should the administrator check first?

- A. The administrator should verify the user has been assigned a role that grants access to the application
- B. The administrator should verify the user has been granted access rights to Private fields within the application
- C. The administrator should confirm the user is named within a Record Permission field within the application
- D. The administrator should verify the user belongs to at least one group

Correct Answer: A

QUESTION 2

If a group is associated with an access role and the group contains sub-groups, how will the associated access role affect the sub-groups

- A. The sub-groups will be associated with the access role
- B. The sub-groups will not be associated with the access role
- C. The sub-groups will be inactivated
- D. The sub-groups will be removed from the group

Correct Answer: B

QUESTION 3

Which Data-Driven Event could be used to conditionally require a field?

- A. Apply conditional layout
- B. Filter values list
- C. Set values list
- D. Set conditional requirement

Correct Answer: A

QUESTION 4

When an administrator selects the "As Needed" option for a Calculated Field, how is the calculation impacted?

- A. The field will be calculated only when there is a scheduled calculation

- B. The field will be calculated every time a user clicks "Save" or when there is a scheduled calculation
- C. The system will analyze the fields referenced by the calculation and determine when the field should be calculated
- D. The field will be calculated only when the record is initially created

Correct Answer: C

QUESTION 5

In order to create a chart using the Advanced Search functionality, what must a user first do?

- A. Configure a filter to be used what will bring back only a subset of the overall data set
- B. Select the Statistics Mode checkbox at the bottom of the Fields to Display section
- C. Select the Charting search results format to be used in the Display Options section
- D. Enter at least one keyword to be used to group the dataset into chartable groups

Correct Answer: D
