QUESTION 4

If the module file name is given without directories or extension, insmod will search for the module in some common default directories. What environment variable can be used to override this:

Correct Answer: MODPATH Answer: modpath

If the module file name is given without directories or extension, insmod will search for the module in some common default directories. The environment variable MODPATH can be used to override this default. If a module configuration file such as /etc/modules.conf exists, it will override the paths defined in MODPATH.

QUESTION 5

You just configured a kernel and now you want to check the dependencies. Please enter the command and its argument(s).

Correct Answer: MAKEDEP
