QUESTION 1

In order to have full control, you decide to use Manual NAT entries instead of Automatic NAT rules. Which of the following is NOT true?

A. When using Static NAT, you must enter ARP entries for the Gateway on all hosts that are using the NAT Gateway with that Gateway\\'s internal interface IP address.

B. When using Static NAT, you must add proxy ARP entries to the Gateway for all hiding addresses.

C. If you chose Automatic NAT instead, all necessary entries are done for you.

D. When using Dynamic Hide NAT with an address that is not configured on a Gateway interface, you need to add a proxy ARP entry for that address.

Correct Answer: A

QUESTION 2

What rules send log information to Dshield.org when Storm Center is configured?

A. Determined in IPS, Dshield Storm Center configuration: Security Management Server sends logs from rules with tracking set to either Alert or one of the specific User Defined Alerts

B. Determined by the Global Properties configuration: Log defined in the Log and Alerts section, rules with tracking sent to Account or SNMP trap.

C. Determined in Web Intelligence, configuration: Information Disclosure is configured; rules with tracking set to User Defined Alerts or SNMP trap.

D. Determined by the Dshield Storm Center Logging setting in Logs and Master of the Security Management Server object rules with tracking set to Log or None.

Correct Answer: A
