QUESTION 1

John is the Security Administrator in his company. He installs a new R77 Security Management Server and a new R77 Gateway. He now wants to establish SIC between them. After entering the activation key, he gets the following message in SmartDashboard

"Trust established?"

SIC still does not seem to work because the policy won't install and interface fetching does not work. What might be a reason for this?

- A. SIC does not function over the network.
- B. It always works when the trust is established
- C. The Gateway's time is several days or weeks in the future and the SIC certificate is not yet valid.
- D. This must be a human error.

Correct Answer: C

QUESTION 2

Which of the following uses the same key to decrypt as it does to encrypt?

- A. B. Dynamic encryption
- B. C. Certificate-based encryption
- C. D. Symmetric encryption

Correct Answer: A

QUESTION 3

_____ is an R77 component that displays the number of packets accepted, rejected, and dropped on a specific Security Gateway, in real time.
