QUESTION 1

Select the two true statements about the translate table. (Choose two.)

A. A translate lookup is searchable.

B. The page control most associated with a translate table validation is a drop-down list box.

C. The best candidates for translate table validation are those fields that require only a value and adescription.

D. When you add translate values to an existing field, the system automatically adds radio buttons to the pages where this field exists.

Correct Answer: BC

QUESTION 2

Select the three true statements about PeopleSoft field definitions. (Choose three.)

A. All PeopleSoft field definition names are in uppercase.

B. Date, Time, and DateTime fields all have a fixed length.

C. When you work with Number and Signed Number field types, the sum of integer and decimal positions must be less than or equal to 40.

D. Altering an existing field definition\\'s default label can have consequences at both the record definition level and the page definition level.

E. For a Long Character field, enter a field length of 256 to enable the database platform to determine the maximum length of the field.

Correct Answer: ABD

QUESTION 3

Many steps in the application development process access the PeopleTools tables. Which step accesses all three categories of tables?

A. Building the table.

B. Defining the page.

C. Defining new fields.
