**QUESTION 1**

You are engaged as a UPK administrator and publisher for a customer who is in the process of upgrading their Oracle EBS application suite to R12.x. The UPK content development team has finished the first set of topics and asked you to publish the content, so their SMEs can directly access the topic they are responsible for. The SMEs are busy and do not have time to download Individual topics.

Which method should you choose to publish and distribute the content?

- A. Publish the content to the individual topic outputs and host the topics on a web server providing links to each topic.
- B. Publish the content using the Player/LMS output and distribute the player package folder to each SME.
- C. Publish the content using the Player/LMS output and host the content on a web server and provide the SMEs with a link to the play.exe file.
- D. Publish the content using the Player/LMS output and host the content on a web server and provide content developers a link tokp.html.

Correct Answer: B

QUESTION 2

Your client has deployed the UPK Developer on a Citrix server, so content authors can access it remotely in Citrix seamless windows. The target application was also installed on the same server. The authors are unable to record content.

Choose three actions that you would take to help discover the problem.

- A. Ensure that the "Time to hide recorder window before screen capture" setting in the Options dialog box is Increased to at least three seconds.
- B. Ensure that the target application (the web browser for web applications) runs in the same Citrix session as the Developer.
- C. Ensure that keyboard shortcuts are not recorded automatically.
- D. Ensure that the screen shot capture key is changed from the default.
- E. Ensure that the sound is correctly set up in Citrix.

Correct Answer: BDE

QUESTION 3

A company has several multi-user UPK libraries configured, but they forgot which Oracle Database and database schema one of these libraries uses.

Where does UPK store this Information?

- A. Encrypted in the web.con fig file in the installation directory of the UPK Developer server.

- B. Encrypted in the oddev.exe.config file in the installation directory of the UPK Developer client.
- C. Encrypted in the oddev.exe.config file in the local document cache of the UPK Developer client.
- D. Not stored anywhere because it is needed only during the installation.

Correct Answer: C

QUESTION 4

You receive an error message during the loading of the library. It states "Error Code = 1. Where is the libraryloader.log file (which contains the details of the error) located?

- A. C: \ Documents and Settings \ USERNAME \ Local Settings \ Application Data\UPK
- B. C: \ Documents and Settings \ USERNAME \ Local Settings \ Application Data
- C. C: \ Documents and Settings \ USERNAME \ Local Settings \Temp
- D. C: \ Documents and Files \ User productivity Kit\UPK Developer 40Server

Correct Answer: A

QUESTION 5

You want to install the Knowledge Center User Import Utility. Select the two items that the administrator must provide before you can launch the application.

- A. the location (path and folder name) for the content root
- B. the name of the server where the KContent root is located
- C. the name of the virtual directory where Knowledge Center is located
- D. your user credentials for the Knowledge Center

Correct Answer: CD
