QUESTION 1

You have installed the Knowledge Center with Windows authentication mode. Select the statement that is true about authentication and authorization of the Knowledge Center.

- A. Authentication of the Knowledge Center is done through Microsoft Windows.
- B. Authorization of the Knowledge Center is done through Microsoft Windows.
- C. The username of the Windows authentication user can be updated in the Knowledge Center.
- D. User information in the Knowledge Center database is used to authenticate users.

Correct Answer: A

QUESTION 2

After a recent service pack update, changes to the Style Library are not appearing as before the update.

How would you fix the problem?

- A. Check to view the new client-created folder in the library to retain Service Pack history.
- B. Check to view the System/Service Pack/ folder for its empty package document for each service pack applied.
- C. Check to view the System/Service Pack/ folder for an annotated package document for each service pack.
- D. Check to make sure that the client has correctly edited the package documents for the correct service pack.
- E. Check to make sure that the client has correctly removed the package documents for the correct service pack applied.

Correct Answer: B

QUESTION 3

A DVD was created to launch UPK content. The sound captured during development is not being played back during testing.

Identify two reasons for this failure.

- A. You have instructed the client to use default.htm to launch the player.
- B. You have instructed the client to use index.html to launch the player.
- C. You have instructed the client to use play.exe to launch the player.
- D. You have instructed the client to use default.html to launch the player.
- E. You have instructed the client to use index.htm to launch the player.

F. The library backup that you restored is possibly corrupted.

Correct Answer: AD

QUESTION 4

When updating a Multi user instance of the Developer with a service pack, what is the one additional step you need to remember that is not part of the single user update?

- A. Choose the installation location of the service pack.
- B. Update each Developer Library with the appropriate service pack documents.
- C. Choose the application to which you want to apply the update.
- D. Choose the UPK Developer.

Correct Answer: B

QUESTION 5

Two authors create a new document with the same name. What happens when they check in their documents?

- A. The last person to save the document overwrites the other document.
- B. If the documents are in different folders, both documents can be saved.
- C. Both documents can be saved because there is a unique document ID.
- D. The system automatically appends a numeric value to the second document.

Correct Answer: D
