QUESTION 1

An administrator receives a trouble ticket reporting a low vRealize Operations for Horizon 6 score value on an object (for example, 15 out of 100).

Which course of action should the administrator recommend?

- A. The value indicates a severe problem state, a red badge, and this should be investigated immediately.
- B. The value indicates a normal state and since there are no real Issues or current problems, no action should be taken.
- C. The value indicates a less severe state, a yellow badge, however this object should be monitored and should be flagged for investigation if the value changes.
- D. The value of a badge must be correlated with the color of the badge to determine if the state is normal or if there is a potential problem.

Correct Answer: D

QUESTION 2

An IT manager is looking for a solution to high maintenance and repair costs in their organization. Which solution would help reduce these costs?

- A. Horizon (with View) Client
- B. vRealize Operations for Horizon
- C. Thin Clients
- D. VMware Mirage

Correct Answer: C

QUESTION 3

Which two actions can an administrator deploy a ThinApp application to a group of users, while also providing reporting and license compliance functionality?

- A. Deploy the ThinApp application using vmw.iio view Administrator.
- B. Deploy the ThinApp application using VMware Workspace Portal
- C. Deploy the ThinApp application using Microsoft Group Policies.
- D. Deploy the ThinApp application using VMware Update Manager.

Correct Answer: BD

QUESTION 4

A company wants to purchase several physical servers, which will be deployed as Virtual SAN- enabled FSXi hosts. The company is unsure which disk architecture types are required to be installed in the server in order to deploy Virtual SAN.

Which two types of physical disks are required to deploy Virtual SAN? (Choose two.)

- A. Flash based devices (SSD) for capacity
- B. Flash based devices (SSU) for performance
- C. Magnetic disks for capacity
- D. SATA disks for performance

Correct Answer: BC

QUESTION 5

An administrator wants to make a centralized Web Management Console available to desktop and mobile users. End users should be able to request applications and virtual desktop resources customized specifically for them.

Which VMware product can offer this functionality?

- A. VMware ThinApp
- B. VMware Workspace Portal
- C. VMware vRealize Automation
- D. VMware Mirage

Correct Answer: D
