QUESTION 1

Your client uses Resource Breakdown Structures (RBS) and Resource Mapping to associate amounts to resources. After making some changes to the resources at project level, forecasts are regenerated. After reviewing the cost amounts associated with the resources, you suspect that the cost association does not match your client's expectations.

Identify two valid rules based on which cost association works.

- A. If the sum of precedence numbers is the same for more than one branch, precedence is given to the branch with the lowest number at the lowest level.
- B. If there is only one level in RBS to which the transaction maps, the cost amounts are mapped to that level.
- C. If a transaction maps to more than one level, Oracle PPM Cloud sums the precedence numbers for all resource types in the branch, and gives precedence to the resource element in the branch with the highest sum.
- D. If one branch contains a user-defined resource type, precedence is given to the branch that contains a user -defined resource type.

Correct Answer: AD

QUESTION 2

In a Project Draft Invoice preview, quantity (hours) and unit price (bill rate) are shown as fields on the invoice. Quantity and unit price are then used to calculate the line total, then the total price of the invoice. After the invoice is transferred or created in Receivables, the invoice detail has a quantity of 1, and a unit price equal to the line total. The detailed Unit Price/Quantity does not come through on the Receivables invoice.

Which statement is correct about details in the Receivables invoice?

- A. The project sends the invoice header, invoice line description, and the invoice distributions to Receivables.
- B. The project sends only the invoice header to Receivables, not the invoice line description and distributions.
- C. The project sends the invoice line description and the invoice distributions to Receivables. But not the invoice header.
- D. The project sends only the invoice header and invoice line description to Receivables, not the invoice distributions.

Correct Answer: A

QUESTION 3

Which three file-based data imports are available for use in Oracle Project Portfolio Management Cloud?

- A. Project Budgets
- B. Project Billing Events

C. Project Tasks

D. Project Templates

Correct Answer: ABC
