**QUESTION 1**

What happens when a demand planner approves a demand plan and then adjusts shipment history and runs demand plan again?

A. The approve action takes the data from the two final forecast measures and copies to Approved Final Shipments Forecast and Approved Final Bookings Forecast, respectively. After a forecast is approved, the approved values remain unchanged until the forecast is approved again.

B. The approve action makes the Adjusted Shipments Forecast and Adjusted Bookings Forecast measures "not editable." After a forecast is approved, the Final Shipments Forecast and Final Bookings Forecast measures remain unchanged until the forecast is approved again.

C. The approve action makes the Adjusted Shipments Forecast and Adjusted Bookings Forecast measures "not editable." But any subsequent demand plan run can change Final Shipments Forecast and Final Bookings Forecast values.

D. The approve action takes the data from the two final forecast measures and copies to Approved Final Shipments Forecast and Approved Final Bookings Forecast, respectively. Any subsequent demand plan run can change final shipments or bookings forecast values that will automatically update the approved forecast measures.

Correct Answer: A

**QUESTION 2**

You have run a plan for your organization and there were sales orders that have been set up for drop shipment that you cannot see in the plan. Which two options explain why the sales orders cannot be seen in the plan? (Choose two.)

A. Drop Ship Item Validation Org has not been set up.

B. Drop Ship Demand Class has not be set up.

C. Supplier not configured in Manage Planning Source Systems

D. Include drop ship demands and supplies flag has not been checked on your plan options.

E. Planning Profile \\'Enable Planning for Drop Shipments\\' has not been set to \\'Yes\\'.

Correct Answer: BC

**QUESTION 3**

A customer would like to account for the production loss in the supply planning process using the item shrinkage rate planning specification.

Which statement reflects the system behavior to meet this requirement?

A. Planning process reduces the demand based on shrinkage factor and keeps the supply quantity as is.

![Pass2Lead](https://Pass2Lead.com)

B. Planning calculation does not support shrinkage functionality.

C. Planning calculates no additional demand but creates the additional required supply based on shrinkage factor.

D. Planning calculation creates scrap demand to compensate for loss and maintains supply.

Correct Answer: D

**QUESTION 4**

Which three statements are true about a drop ship validation organization? (Choose three.)

A. It is the source for organization-item attributes when creating drop ship planned orders.

B. It can be a Cost Organization.

C. It is not required in order to use drop shipments.

D. It cannot be an item organization.

E. It is a proxy for the organization during the collections of drop ship sales orders and drop ship history.

F. It can be an item organization.

Correct Answer: AEF

Use the drop ship validation organization for the following purposes:

- As the source for organization-item attributes when creating drop ship planned orders
- As a proxy for the organization for drop ship forecasts and manual demands
- As a proxy for the organization during the collections of drop ship sales orders and drop ship history

Specify the drop ship validation organization when you generate a forecast or create a manual demand. Drop ship sales order bookings and shipments history are collected with the drop ship validation organization when items are shipped from the warehouse. Demand forecasting can create forecasts for the drop ship validation organization and release the forecasts for planning supplies.

The drop ship validation organization can be the item master for a source system, but it is not required.

✎ **Note:** The drop ship validation organization must be an item organization. When you set up the drop ship validation organization, if the item master holds any transactions, create a new drop ship validation organization.

**QUESTION 5**

Your client wants to create a supply plan that only considers sales order and disregards forecast demand within a specific demand horizon. What must you do to accomplish this?

A. Manage Plans > Search and select supply plan > Supply tab > Organizations and Schedules tab > Remove all demand schedules

B. Manage Plans > Search and select demand plan > Demand tab > General tab > Select \\'Do no spread forecast\\'

![Pass2Lead](https://Pass2Lead.com)
C. Manage Plans > Search and select demand plan > Demand tab > General tab > Check Demand Time Fence Control

D. Manage Plans > Search and select supply plan > Supply tab > General tab > Advanced Options > Check \\'Create time fence\\'

E. Manage Plans > Search and select supply plan > Supply tab > General tab > Check Demand Time Fence Control

Correct Answer: E
