QUESTION 1

Which two statements are true for the system.webview component?

- A. Parameters passed from the skill to the web application cannot be accessed through JavaScript.
- B. Property names in the web application response payload must match with the variable names in the dialog flow.
- C. When registering web applications in a skill, bot designers can see the data structure returned by the app
- D. Parameters passed from the skill to the web application are accessible through JavaScript.
- E. The webview.onDone parameter is automatically added to the payload and passes the skill's callback URL property to the web application.

Correct Answer: AD

QUESTION 2

Consider this code snippet:

```
webview:  
  component: "System.Webview"  
  properties:  
    sourceVariableList: "fullname, amount"  
    variable: "outputfromweb"  
    prompt: "Tap the link to file your dispute."  
    service: "DisputeFormService"  
  transitions:  
    next: "output"
```

Which two statements about this code are true?

- A. The system.webview component acts a gateway to a web app by naming the Webview service,
- B. e., DisputeFormService, in the code snippet.
- C. If the web app returns any values, the System.webview component will store them in the outputfromweb variable.
- D. This code snippet supports only one variable as a return value from the web application. When there are multiple return values, they need to be comma-separated. For example: variable: "outputfromweb1, outputfromweb2 M
- E. The web app returns two values and will store them in the fullname and amount variables, respectively.

Correct Answer: AB

QUESTION 3

Which two statements are true regarding local web application invocation using the system.webview component?

- A. Local webviews require a Node.js environment and must have a package, json file in their root folder.
- B. An SPA application can issue an Ajax post command to the callback URL that has been passed with the web application launch
- C. system.webview components can only be used with web channels.
- D. Local webviews require SPA applications to have an index.html file in their root folder.

Correct Answer: AD

QUESTION 4

A user is in the middle of a conversation flow with a digital assistant but then triggers the Exit system intent by saying "get me out of here". Which statement is true?

- A. Depending on digital assistant routing parameters, the user will be prompted to confirm exiting from the current conversation.
- B. The conversation can only be exited if the current context score is lower than the Exit Skill Confirmation digital assistant routing parameter.
- C. The conversation can only be exited if the current context score is greater than the Exit Skill Confirmation digital assistant routing parameter.
- D. Because the user didn't explicitly specify the invocation name of the skill when exiting, the user will always be prompted to confirm exiting the current conversation.
- E. The conversation will resume at a state in the skill defined by a digital assistant parameter.

Correct Answer: C

QUESTION 5

Consider the following dialog flow code in a skill: Which statement is true?

```
wait:
  component: "System.Output"
  properties:
    text: "Please wait, we're reviewing your order"
    keepTurn: true
  transitions:
    next: "waitmore"

waitmore:
  component: "System.Output"
  properties:
    text: "Almost done..."
    keepTurn: false
  transitions:
    next: "printIt"

printIt:
  component: "System.Output"
  properties:
    keepTurn: true
    text: "Thank you for your order."
  transitions:
    return: "done"
```

- A. The skill displays the message "Please wait, we're reviewing your order", then displays "Almost done...", then displays "Thank you for your order.", and then completes the conversation.
- B. The skill displays the message "Please wait, we're reviewing your order" and then waits for user input.
- C. The skill displays the message "Please wait, we're reviewing your order", then displays "Almost done...", and then waits for user input.
- D. The skill displays the message "Please wait, we're reviewing your order", then displays "Almost done...", then displays "Thank you for your order.", and then waits for user input.

Correct Answer: A
