QUESTION 1

A global Power Systems manufacturer sells Uninterrupted Power Supply (UPS) products through its online portal. To gain competitive advantage, the manufacturer wants to enhance the ability of buyers to select a desired configuration of the high-end UPS models through guided selling options on its online selling portal. The company\\'s product development team has finalized the enhancements, and needs your help to get them implemented on their online selling portal that is supported by Oracle Cloud Configurator.

What four actions would you take in Oracle Cloud Configurator to enhance a buyer\\'s experience? (Choose four.)

A. You can allow buyers to raise requests if an expected product functionality is not offered.

B. You can create enhancements to the model structure that supplements the imported configurable structure of a model item.

C. You can create rules that will guide users in creating a valid model.

D. You can create user interfaces that will be dynamically presented to users based on the options chosen in the Configurator model.

E. You can test the behavior of the configured model anytime when you are editing it.

F. You can enable a checkout option for a model when a valid configuration is finalized.

G. You can display product reviews of customers who have purchased the same configuration earlier.
