**QUESTION 1**

You are running a Scenario in a Load Plan using a Run Scenario step. This scenario contains the Interfaces. In case of failure in this Scenario, you would like to restart the Interface that failed beginning. Which Restart Type option do you need to pick for the Run Scenario step?

- A. Restart from new session
- B. Restart from failed step
- C. Restart from failed task
- D. Restart from failure

Correct Answer: B

http://docs.oracle.com/cd/E38317_01/doc.11117/e37987/manageloadplans.htm#CIHJCBHJ

QUESTION 2

To declare mapping on a target column, does a developer have to manually write the required database functions?

- A. Yes, ODI only allows manual insertion of information related to source-target mappings.
- B. Yes, either the work area can be used to write the functions or a configuration file can be prepared for ODI to read.
- C. No, a developer must prepare a configuration file and associate to it a user function,
- D. No, a graphical expression editor can be used to drag and drop columns and the required function definitions.

Correct Answer: D

QUESTION 3

Select the correct statement in an ODI interface, each column of the target can have at most, one mapping in a given dataset.

- A. No, a target column can have multiple defined mappings.
- B. No, a variable is used to evaluate if the target column can have more than one mapping.
- C. Yes, a target column can have a unique and well-defined mapping.
- D. Yes, a target column can have a unique definition, but an ODI procedure can define additional mappings for that column.

Correct Answer: C

Reference: http://docs.oracle.com/cd/E21764_01/integrate.1111/e12643/interfaces.htm

QUESTION 4

Is it possible to import a knowledge module into project (A) and then reference that knowledge module in another project (B)?

- A. Yes, knowledge modules can be imported.
- B. Yes, but three specific variable;; have to be declared to indicate the data environment.
- C. No, to use a knowledge module, it must be imported into each project.
- D. No,because a variable needs to be set to define it as a global knowledge module-

Correct Answer: C

Only global KMs or KMs that have already been imported into the project can be selected in the interface. Make sure that you have imported the appropriate KMs in the project before proceeding.

QUESTION 5

After invoking an Enterprise Data Quality Job from ODI, where can you monitor the detailed progress of that Job?

- A. In Operator
- B. In Enterprise Data Quality
- C. In ODI Console
- D. In Enterprise Manager

Correct Answer: C
