**QUESTION 1**

To enable one of your new suppliers to upload product data into Oracle Product Hub Cloud, you define a new Import Map as per the supplier's data template.

Which configuration would you use to make it visible as a template in the Oracle Product Hub Cloud portal such that your new supplier can use it for uploading items?

- A. Active flag
- B. External flag
- C. Item Class
- D. Suppliers flag
- E. File Type

Correct Answer: C

---

**QUESTION 2**

Your customer has items created in the master organization and the same items are available across two child organizations, each in a unique location. As part of a data governance use case, the customer wants all the attribute changes for an item to be approved by the respective location-specific Data Stewards.

How would you address this requirement?

- A. By enabling Change Order Header Rule Based Single Approver at the organization level
- B. By enabling organization-specific item rules for a change order
- C. By defining propagation rules for the organization hierarchy for a change order
- D. By defining two change order types at the organization level

Correct Answer: C

---

**QUESTION 3**

Your customer has been using Product Hub and has decided to extend its manufacturing operations to a new facility. They want to transfer the manufacturing of some of their existing items to this new facility.

Identify the two required setups in Product Hub to support this change.

- A. Define Units of Measures
- B. Define Item Class Security

- C. Define Item or Inventory Organization
- D. Define Lifecycle Phases and Assign to Item Class
- E. Define Catalogs
- F. Define Key Flexfield for Categories

Correct Answer: AE

---

#### QUESTION 4

You have created an implementation project in Functional Setup Manager (FSM) and your customer has a new requirement to enable the Item Rules option on the Configure Offerings page. However, the tasks related to Item Rules are not available to you.

What are two reasons for this behavior?

- A. The offerings for the selected implementation project are not re-provisioned.
- B. The related tasks are not assigned to you.
- C. The newly generated tasks are not manually included in the implementation project.
- D. The implementation status for the Item Rules option has not changed to Started.

Correct Answer: BC

---

#### QUESTION 5

Which statement is true about the relationship between supplier users and supplier items?

- A. Item access to supplier users can be managed at the item level by using the Manage Items page.
- B. Access to supplier items can be maintained only at the OIM level.
- C. You cannot restrict item access at the supplier user level.
- D. Item access to supplier users can be managed at the item level by using the Manage Supplier User page.

Correct Answer: D
