QUESTION 1

Which statement is false about the User Role?

A. User Role controls data visibility via function security (Level).

B. User Role controls data visibility via a private database (VPD).

C. You can assign multiple roles to a master role.

D. Only one role can be assigned to one User.

Correct Answer: D

You can assign one or more of these roles to a user and the user could switch between the roles as needed without logging in and out.
