### QUESTION 1

Ten task workers in a remote branch office access Horizon VMs running Windows 7. The workers use PCoIP zero clients over a 40 Megabit per second network connection. No GPO currently alerts the default Horizon PCoIP settings. Which two Horizon PCoIP GPO settings improve user experience and help reduce the network bandwidth needed by each Horizon zero client session? (Choose two.)

- A. Audio bandwidth limit
- B. Session bandwidth floor
- C. Build-to-Lossless
- D. Session MTU

Correct Answer: BD

---

### QUESTION 2

A company has decided to virtualize all of its helpdesk employee's workstations. These requirements must be met:

1.

All applications used by the employees will be published through RDS hosted application.

2.

Users will NOT be allowed to store any personal data on their Horizon desktops.

3.

The Horizon desktop design should meet maximum storage space efficiency.

4.

The Horizon desktop design should meet maximum performance.

5.

The Horizon desktop design should meet maximum power savings.

Which three features can be enabled to meet the company's requirements? (Choose three.)

- A. Full clones
- B. Instant clones
- C. Space Efficient disk format (SEsparse)
- D. Content-based read cache (CBRC)

E. Virtual SAN (vSAN)

Correct Answer: BCD

---

### QUESTION 3

A company wants to deploy Horizon desktops with persistent disks for their power users and instant clone desktops for their task workers. What is the minimum configuration needed?

- A. Two VMs with two snapshots of each VM.
- B. One template with two snapshots.
- C. One VM with one snapshot.
- D. Two VMs with one snapshot of each VM.

Correct Answer: A

---

### QUESTION 4

A company has decided to implement RDS Application Pools. Its current server standard is Windows Server 2008 R2. The application requires access to a client USB device.

What must be done to allow USB redirection for this setup?

- A. Install new RDS servers using Windows Server 2012 R2.
- B. Install View Client on user device with USB redirection feature enabled.
- C. Install VMware User Environment Manager.
- D. Install View Agent on existing RDS Servers and select USB redirection to be included.

Correct Answer: D

---

### QUESTION 5

Company A decided to start using GPO to optimize PCoIP across all their Horizon 7 Desktop pools. During the Proof of Concept (POC) on the local network, there were no performance issues. The company decided to move to UAT. Access from the outside network needs to be tested. Some sales staff traveling to overseas countries, where network speed is low, have reported that the screen quality is degraded during usage.

Which setting should be recommended to retain screen quality, regardless of a user's connection?

- A. Configure the PCoIP session bandwidth floor value.
- B. Configure PCoIP client image cache size policy.
- C. Turn on Build-to-Lossless feature.

D. Configure the maximum PCoIP bandwidth session.

Correct Answer: C
