QUESTION 1

What statement is TRUE regarding service chaining provided by Nuage VCS?

- A. Service chaining is flow-based traffic redirection.
- B. Service chaining only works for virtual appliances.
- C. A virtual firewall is required to perform service chaining.
- D. It consists of packets being forwarded by the local VPLS, then through the enterprise VPRN and lastly the backhaul VPLS.

Correct Answer: B

QUESTION 2

What statement about stateful ACL entries is FALSE?

- A. They can track both TCP and UDP flows.
- B. They can be created in either ingress or egress directions.
- C. A packet in the direction of the stateful ACL rules will automatically create a “related” rule in the reverse direction.
- D. The automatically created rules will not go away until the ACL is manually deactivated and reactivated.

Correct Answer: D

QUESTION 3

Which VSD component provides a south-bound interface for communication with the VSC?

- A. VSD Mediator
- B. Statistics Engine
- C. Policy Management Engine
- D. RESTful API

Correct Answer: A

VSD mediator is a VSD Southbound interface used for communication to the VSC. Reference:

QUESTION 4

What impact does server virtualization have on a traditional datacenter network?

- A. Traffic between the virtual machines must be carried in the overlay network, which is not supported by a traditional datacenter network.
- B. Server virtualization requires a hardware upgrade of the network devices (for example, TOR/EOR switch, leaf and spine routers) in a traditional datacenter network.
- C. Server virtualization requires a software upgrade of the network devices (for example, TOR/EOR switch, leaf and spine routers) in a traditional datacenter network.
- D. Traditional network configuration involves manual interaction, which cannot keep up with the dynamic reallocation of compute resources to virtual machines.

Correct Answer: C

QUESTION 5

What mapping is FALSE?

- A. CMS – Management plane
- B. VSD – Management plane
- C. VSC – Control plane
- D. VRS – Control plane

Correct Answer: A
