QUESTION 1

Which two statements about COR lists are true? (Choose two.)

A. If there is no outgoing COR list applied, the call is routed.

B. If there is no outgoing COR list applied, the call is blocked.

C. If there is no incoming COR list applied, the call is routed.

D. If there is no incoming COR list applied, the call is blocked.

Correct Answer: AC

QUESTION 2

Refer to the exhibit.

What protocol is being used to send and receive instant messaging between the Cisco Unified Personal Communicator and Cisco Unified Presence?

A. Enterprise Instant Messaging Protocol

B. Extensible Messaging and Presence Protocol

C. SIP

D. SCCP

E. CTI

Correct Answer: B

Cisco Unified Presence consists of many components that enhance the value of a Cisco Unified Communications

system. The main presence component of the solution is the Cisco Unified Presence server, which incorporates the Jabber Extensible Communications Platform and supports SIP/SIMPLE and Extensible Messaging and Presence Protocol (XMPP) for collecting information regarding a user\\'s availability status and communications capabilities

QUESTION 3

Which type of user in Cisco Unified Communications Manager has an interactive login?

A. administrator

B. end user

C. application user

D. phone user

Correct Answer: B

End users -- End users are associated with an individual and have an interactive login.

End users can have administrative roles based on the user group role configuration.

Application users -- Application users are associated with applications such as Cisco Unified Attendant Console, Cisco Unified Contact Center Express (UCCX), or Cisco Unified Manager Assistant. The mentioned applications need to

authenticate with CUCM, but application users do not have the ability to interactively log in. Application users are leveraged for internal process-level communications between applications.
