-  **800,000+** Satisfied Customers

QUESTION 1

The Cisco Unified Communications architecture supports which three technologies? (Choose three.)

- A. Physical Security
- B. Cisco Unified Video Advantage
- C. Intelligent Building Management
- D. Contact Center
- E. Workforce Optimization
- F. Smart Grid Management

Correct Answer: BDE

: Workforce Optimization is mentioned in the student material. Page 1-5

QUESTION 2

What is the maximum number of supported participants for a MeetMe conference?

- A. 32
- B. 64
- C. 96
- D. 128

Correct Answer: D

QUESTION 3

Which two qualities of PKI key exchange overcome asymmetric cryptography scalability issues? (Choose two.)

- A. the trusted introducer uses the signed certificates of the endpoints that need to communicate
- B. the introducer digitally signs the public key of the user with the public key of the introducer to generate a signed certificate
- C. only the public key of the introducer has to be initially known and verified by all other entities
- D. PKI uses only a single trusted introducer

Correct Answer: CD

Chapter 14: Understanding Cryptographic Fundamentals and PKI pg. 374 A PKI does not eliminate the need for authenticity when you exchange public keys in an asymmetric encryption environment, but it solves the scalability

issues

associated with that process.

A PKI uses the concept of a single, trusted introducer. Instead of securely exchanging all public keys among all devices, only the public key of the trusted introducer has to be securely distributed to all devices. This exchange is usually done by downloading the public key and then verifying it out of band.

QUESTION 4

Which two algorithms are valid to distribute calls in a route group? (Choose two.)

- A. round-robin
- B. top-down
- C. bottom-up
- D. broadcast
- E. circular

Correct Answer: BE

QUESTION 5

Which protocol is used by the Media Gateway Control Protocol gateways in Cisco Unified Communications Manager?

- A. Q signaling
- B. H.323
- C. H.225
- D. Session Initiation Protocol

Correct Answer: A
