QUESTION 2

You deploy Skype for Business for a company that has three office locations. The locations and total number of users

per location are shown below:

Office Location	Total number of users
Boston	2,000
Chicago	1,500
New York	4,000

You must deploy Enterprise Voice. You have the following requirements:

All New York and Boston users that have IP PBX phones must be able to call each other without using the public switched telephone network (PSTN).

Audio and video conferencing quality must be improved between the New York and Chicago offices.

You need to ensure that Enterprise Voice is deployed correctly.

How many of each component or server should you deploy? To answer, select the appropriate number for each component or server in the answer area.
