QUESTION 1

You are a SharePoint administrator for Contoso Ltd. You manage an environment that includes an on-premises SharePoint Server and ShapePoint Online.

Data stored on-premises must not be indexed online. In addition, this data must not be available outside of the corporate network.

You need to configure federated search.

Which two actions should you perform. Each correct answer presents part of the solution.

A. In SharePoint Online, create a results source.

B. In SharePoint Server, create a query rule to turn on hybrid search results.

C. In SharePoint Online, create a query rule to turn on hybrid search results.

D. In SharePoint Server, create a result source.

Correct Answer: CD

QUESTION 2

A college plans to enable personal sites for all users. All personal sites will be created in a dedicated web application. All staff, faculty members, and students have access to the same SharePoint environment.

You need to ensure that only college staff and faculty members can create personal sites.

What should you do?

A. Define site app permissions for the intranet site collection.

B. Manage user permissions for the User Profile service application.

C. Define permission levels for the intranet site collection.

D. Manage organization subtypes for the User Profile service application.

Correct Answer: B
