QUESTION 1

You create a new project plan. You plan to take a snapshot of the project before and after the project start date. For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Hot Area:

Statement	Yes	No
You should set the first baseline before the project begins.	<input type="radio"/>	<input type="radio"/>
You should set the first baseline after the project begins.	<input type="radio"/>	<input type="radio"/>
You should set an interim plan after the project begins.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Statement	Yes	No
You should set the first baseline before the project begins.	<input checked="" type="radio"/>	<input type="radio"/>
You should set the first baseline after the project begins.	<input type="radio"/>	<input checked="" type="radio"/>
You should set an interim plan after the project begins.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 2

You are a project manager in an organization that is using Microsoft PPM. You are managing a 12-month project. Resources have been working on the project for six months.

You need to determine how the project is tracking against the initial goals in terms of duration, work and cost.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area, and arrange them in the correct order.

Select and Place:

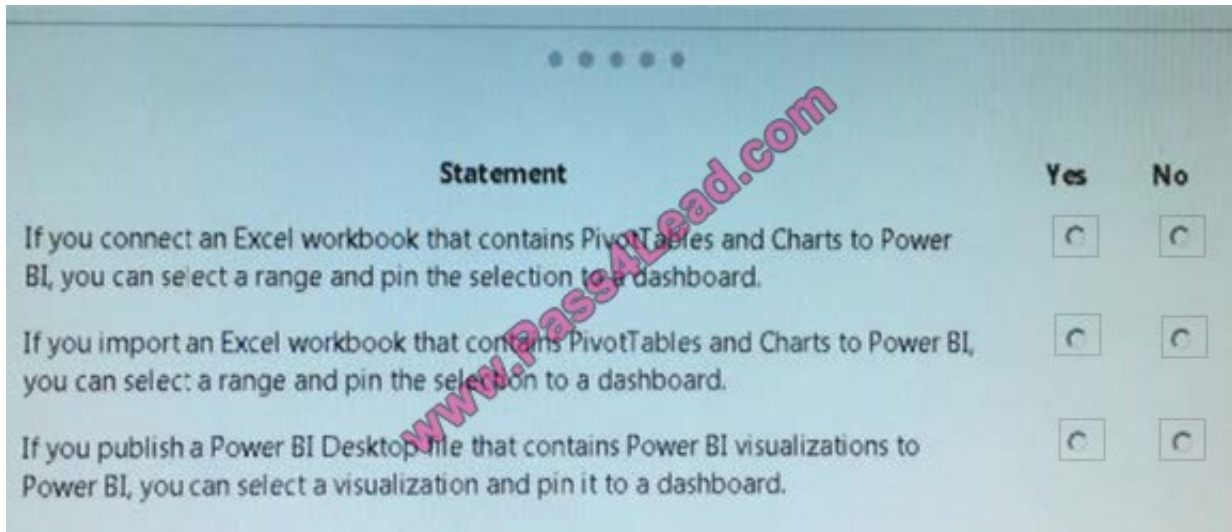

Correct Answer:

QUESTION 3

Your organization uses Microsoft PPM and Power BI to manage projects. You create status reports for projects by using Microsoft Excel files and Power BI Desktop. You plan to combine several specific reports into a single Power BI dashboard.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Hot Area:

Correct Answer:

QUESTION 4

You are a project manager using Microsoft PPM,

You need to create a new project that uses one of your company's templates.

What are two ways to achieve the goal? Each correct answer presents a complete solution.

- A. From Microsoft Project, select Enterprise.
- B. In Project Center, select New and then select the desired enterprise project type.
- C. In Resource Center, select New.
- D. From Microsoft Project select Featured.

Correct Answer: AB

QUESTION 5

You are an administrator for your company's Microsoft PPM environment. You implement several project level enterprise custom fields and add these fields to new and existing views.

Some users report they spend too much time scrolling left and right in a view named Team Status. You determine that the column width for the Enterprise Project Type field may be causing the issue.

You need to reduce the amount of scrolling.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

The screenshot shows a 'Select and Place' interface. On the left, under the heading 'Actions', there is a list of five actions in blue boxes:

- Increase the value of **Left offset for the splitter bar**.
- Select the **Team Status** view.
- From **Settings**, click **Manage Views**.
- Save the view.
- Decrease the value of **Left offset for the splitter bar**.
- Decrease the field width for the **Enterprise Project Type** field and enter **EPT Name** into the **Custom Label** field.

On the right, under the heading 'Answer Area', there are two empty blue boxes. Navigation arrows (right, left, up, down) are visible between the two areas.

Correct Answer:

The screenshot shows the 'Select and Place' interface with the correct sequence of four actions moved to the 'Answer Area' in blue boxes:

- Select the **Team Status** view.
- Increase the value of **Left offset for the splitter bar**.
- From **Settings**, click **Manage Views**.
- Save the view.

The remaining two actions from the original list are still in the 'Actions' list on the left.
