QUESTION 1

A company has client computers that run Windows 7. Each employee has two client computers: one at work and one at home.

The company plans to deploy Windows 8.1 to all client computers.

You are planning a deployment strategy.

You have the following requirements:

Minimize deployment time.

Ensure that the PC Reset and PC Refresh features can be utilized on all work computers.

You need to plan a deployment strategy that meets the requirements.

What should you do? (To answer, drag the appropriate installation method or methods to the correct location or locations in the answer area. Methods may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.)

Select and Place:

Installation Methods

Install Windows 8.1 directly on the client computer.

Start the client computer from a USB flash drive on which you have installed Windows 8.1.

Start the client computer from a USB flash drive on which you have installed Windows To Go.

Start the client computer from a OneDrive location on which you have installed Windows 8.1.

Answer Area

Computer	Method
Work computer	Installation Method
Home computer	Installation Method

Correct Answer:

Installation Methods

Start the client computer from a USB flash drive on which you have installed Windows 8.1.

Start the client computer from a OneDrive location on which you have installed Windows 8.1.

Answer Area

Computer	Method
Work computer	Install Windows 8.1 directly on the client computer.
Home computer	Start the client computer from a USB flash drive on which you have installed Windows To Go.

QUESTION 2

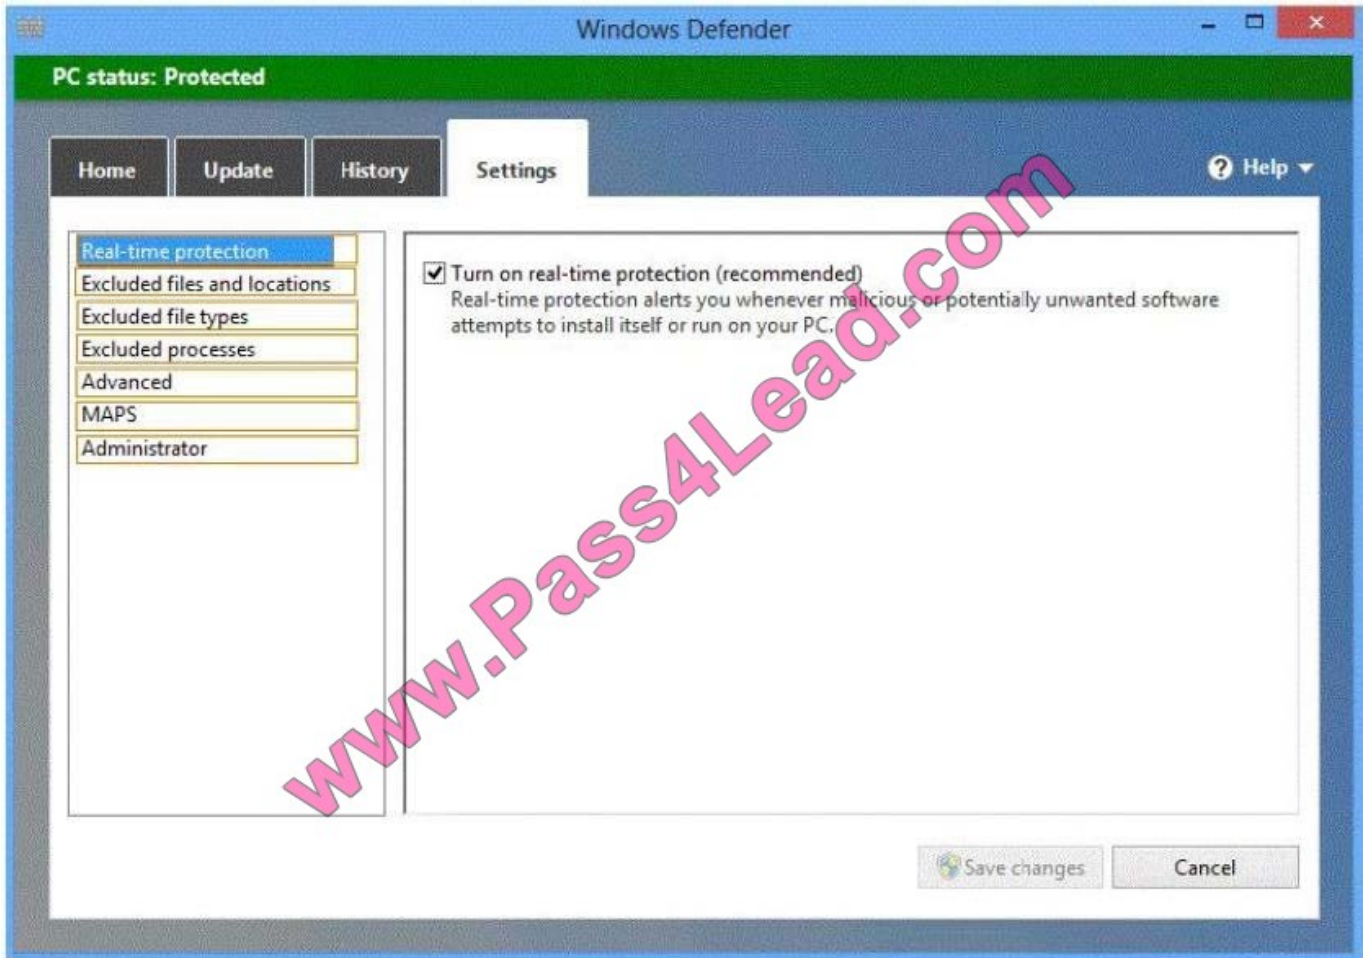

You have computers that run Windows 8 Pro and are configured as a workgroup. Each computer is scheduled to run a Windows Defender full scan every morning at 07:00.

Users report that they are unable to view previous instances of detected malware when they arrive to work.

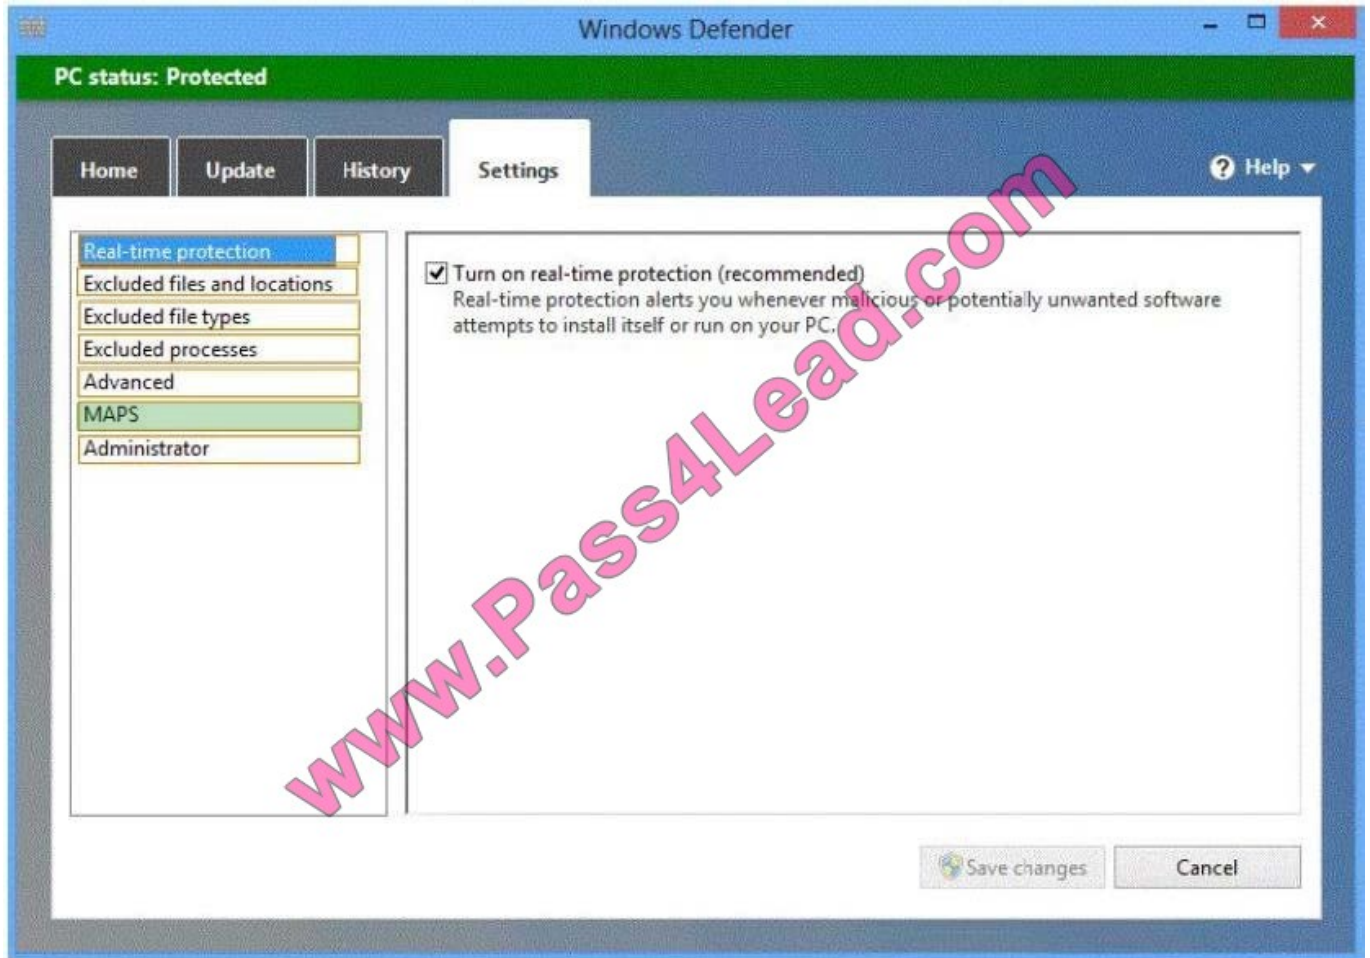

You need to ensure that all users can see previous instances of detected malware in Windows Defender.

Which option on the Settings tab should you select? (To answer, select the appropriate option in the answer area.)

Hot Area:

Correct Answer:

QUESTION 3

A company has 10 client computers that run Windows 8. You are responsible for technical support. You purchase a support tool from the Windows Store while logged in with your Microsoft account.

You install the support tool on several client computers.

Three months later, you attempt to install the support tool on another client computer. The installation fails.

You need to ensure that you can install the support tool on the client computer.

What should you do?

- A. On the computer on which you want to install the tool, synchronize the Windows Store application licenses.
- B. Disassociate your Microsoft account from the computer on which you want to install the tool. Then reassociate your Microsoft account with the computer.
- C. Reset your Microsoft account password.
- D. Log in with your Microsoft account and remove a computer from the Windows Store device list.

Correct Answer: D

You could prevent installation of mass storage devices but use the "Allow administrators to override" setting to ensure an administrator could get the flash drive installed.

Device Installation Restrictions		
Setting	State	
Allow administrators to override Device Installation Restriction policies	Not configured	
Allow installation of devices using drivers that match these device setup classes	Not configured	
Prevent installation of devices using drivers that match these device setup classes	Not configured	
Display a custom message when installation is prevented by a policy setting	Not configured	
Display a custom message title when device installation is prevented by a policy setting	Not configured	
Allow installation of devices that match any of these device IDs	Not configured	
Prevent installation of devices that match any of these device IDs	Not configured	
Time (in seconds) to force reboot when required for policy changes to take effect	Not configured	
Prevent installation of removable devices	Not configured	
Prevent installation of devices not described by other policy settings	Not configured

<http://windows.microsoft.com/en-us/windows-8/windows-store-install-apps-multiple-pcs> You can remove a PC from your account when you're signed in to the Store on any PC. After you've removed a PC from your account, you won't be able

to use the apps that were installed from the Store on that PC.

Further information:

<http://windows.microsoft.com/en-us/windows-8/what-troubleshoot-problems-app> Troubleshoot problems with an app

Sync app licenses

If a license for an app is out of sync with the license installed on your PC, the app might stop working.

QUESTION 4

A computer currently runs a 64-bit version of Windows 7 Enterprise.

You need to deploy a 64-bit version of Windows 8.1 Pro to the computer. The new deployment must not affect the Windows 7 installation on the computer.

Which three actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

Select and Place:

Select the installation option to delete each partition on the hard drive.

Start the computer from the Windows 8 installation media.

Using Windows Explorer, run the setup program from the Windows 8 installation media.

Select the **Custom** installation option.

Select the **Upgrade** installation option.

In Disk Management, shrink the current hard drive partition.

QUESTION 5

Your company is deploying new Windows 8.1 computers.

The company has several departments. Each department requires different hardware configurations.

You need to implement the appropriate hardware. You have the following requirements:

Finance must have BitLocker To Go.

Operations must have the ability to use tablets and access the Windows Store to download and run apps.

IT must have the ability to use Hyper-V with Windows 8.1.

Marketing must have the ability to use tablets as well as the snap app functionality.

What are the minimum hardware requirements to meet each department's needs? (To answer, drag the appropriate hardware to the correct location or locations in the answer area. Each answer may be used more than once.)

Select and Place:

Hardware	Answer Area
USB flash drive	Finance hardware
multitouch screen with a minimum of 1024x768 resolution	Operations hardware
64-bit processor	IT hardware
multitouch screen with a minimum of 1366x768 resolution	Marketing hardware

Correct Answer:

Hardware	Answer Area
	Finance USB flash drive
	Operations multitouch screen with a minimum of 1024x768 resolution
	IT 64-bit processor
	Marketing multitouch screen with a minimum of 1366x768 resolution
