QUESTION 1

You need to apply a hotfix to a Windows Preinstallation Environment (windows PE) image by using Dism. Which parameter should you use?

- A. /Set-Edition
- B. /Add-Package
- C. /Add-Driver
- D. /Enable-Feature

Correct Answer: B

QUESTION 2

You install Windows on a computer named Computer1.

You add an answer file to Computer1 that modifies the user experience when the computer starts for the first time.

You plan to capture Computer1 and then deploy the image to several computers.

You need to verify the user experience when the computer starts for the first time.

What should you run on Computer1? To answer, select the appropriate option for each list in the answer area

QUESTION 3

Your company plans to implement a deployment environment.

The company identifies the following requirements for the planned implementation:

A manager at the company recommends deploying generalized images from a network share.

You need to identify which requirements the recommendation meets.

Which two requirements should you identify? Each correct answer presents part of the solution.

- A. Automatically start the deployment only when 10 computers are ready for installation.
- B. Ensure that all customers accept the EULA the first time they start their computer.
- C. Use the least amount of network traffic to deploy images.
- D. Install multiple computers simultaneously.

Correct Answer: BD

QUESTION 4

A technician applies an image of Windows to a client computer.

The technician reports that several errors occurred during the Windows Welcome phase of the setup.

You need to view the errors that occurred during Windows Welcome.

Which file should you view?

- A. Setupapi.dev.log
- B. Cbs_unattend.log
- C. Setupapi.offline.log
- D. Setupact.log

Correct Answer: D

QUESTION 5

You work for an OEM builder.

You create a custom image of Windows 10 for a customer. You deploy the image to 100 clients that are then shipped to a customer.

For recovery purposes, the customer requests that you provide removable media that contains the image.

What should you do?

- A. Create an image of a reference computer on a USB key by using a third-party imaging software.
- B. Inform the customer that the customer must download the custom image from the Microsoft Volume Licensing Service Center (VLSC).
- C. Create an image of a reference computer on a DVD by using a third-party imaging software.
- D. Inform the customer that you are prohibited from providing a recovery solution for the custom image on removable media.

Correct Answer: D

You can provide a hard disk recovery solution for a custom image, but not removable media containing a custom image.
