QUESTION 1

You need to identify the metric that is causing poor quality in Lync calls by analyzing the user activity report collected by the help desk department. Which metric should you choose?

A. burst gap duration

B. packet loss

C. jitter

D. round trip

Correct Answer: B

QUESTION 2

You need to recommend a solution to test users\\' ability to schedule, join, and conduct an audio/video (A/V) conference. What should you do?

A. Run the Test-CsMcxConference synthetic transaction, save the results, and then view the results through the Lync Server Logging Tool.

B. Run the Test-CsAVConference synthetic transaction and then analyze the trace call flow in Snooper.

C. Run the Test-CsUcwaConference synthetic transaction.

D. Run the Test-CsAudioConferencingProvider synthetic transaction, save the results, and then view the results through the Central Logging Service.

Correct Answer: C

QUESTION 3

You analyze the results of Lync traffic modeling for a customer\\\'s network. Information about the network is displayed in the exhibit. (Click the Exhibit button.)
The model is based on all Lync modalities usage and assumes that all Lync servers are consolidated in the datacenter.

Your customer wants to dedicate no more than 30 percent of its Multiprotocol Label Switching (MPLS) links to Lync traffic. The branch office link must accommodate at least 50 simultaneous phone calls.

You need to recommend network changes to meet the customer\'s requirements.

Which change should you recommend for each link? (To answer, drag the appropriate change or changes to the correct link or links in the answer area. Each change may be used once, more than once, or not at all. You may need to drag the

split bar between panes or scroll to view content.)

Select and Place:

Change	Link	
Implement Quality of Service (QoS).	branch office VPN link	
Implement Call Admission Control (CAC).	branch office VPN link	
Replace the link with an MPLS link.	branch office VPN link	
Replace the link with a virtual private network (VPN) link.	main office MPLS link	
	main office MPLS link	
	data center MPLS link	
	data center MPLS link	

Correct Answer:

Change	Link	
Implement Quality of Service (QoS).	branch office VPN link	Implement Quality of Service (QoS).
Implement Call Admission Control (CAC).	branch office VPN link	Implement Call Admission Control (CAC).
Replace the link with an MPLS link.	branch office VPN link	Replace the link with an MPLS link.
Replace the link with a virtual private network (VPN) link.	main office MPLS link	Implement Quality of Service (QoS).
	main office MPLS link	Implement Call Admission Control (CAC).
	data center MPLS link	Implement Quality of Service (QoS).
	data center MPLS link	Implement Call Admission Control (CAC).

QUESTION 4

You need to prepare the Quality of Service (QoS) policy for the audio/video (A/V) Edge Servers in order to meet the technical requirements of Humongous Insurance.

Which values should you use for each configuration? (To answer, drag the appropriate value or values to the correct configuration or configurations in the answer area. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.)

Select and Place:

Values	Configuration	
51001:61001	Configure a Group Policy object (GPO) for Lync audio and apply it to the organizational unit that contains the Lync 2013 servers, and then configure a port range of _____ ...	
49152:57500		
57501:65535	... and a differentiated services code point (DSCP) value of _____.	
24		
34		
36	Configure a Group Policy object (GPO) for Lync video and apply it to the organizational unit that contains the Lync 2013 servers, and then configure a port range of _____ ...	
46		
49	... and a differentiated services code point (DSCP) value of _____.	

Correct Answer:

Values	Configuration	
51001:61001		
	Configure a Group Policy object (GPO) for Lync audio and apply it to the organizational unit that contains the Lync 2013 servers, and then configure a port range of _____ ...	49152:57500
	... and a differentiated services code point (DSCP) value of _____.	46
24		
	Configure a Group Policy object (GPO) for Lync video and apply it to the organizational unit that contains the Lync 2013 servers, and then configure a port range of _____ ...	57501:65535
36		
	... and a differentiated services code point (DSCP) value of _____.	34
49

QUESTION 5

You analyze the results of Lync traffic modeling by using the Lync Bandwidth Calculator. The relevant portion of the network topology is shown in the exhibit. (Click the Exhibit button.)
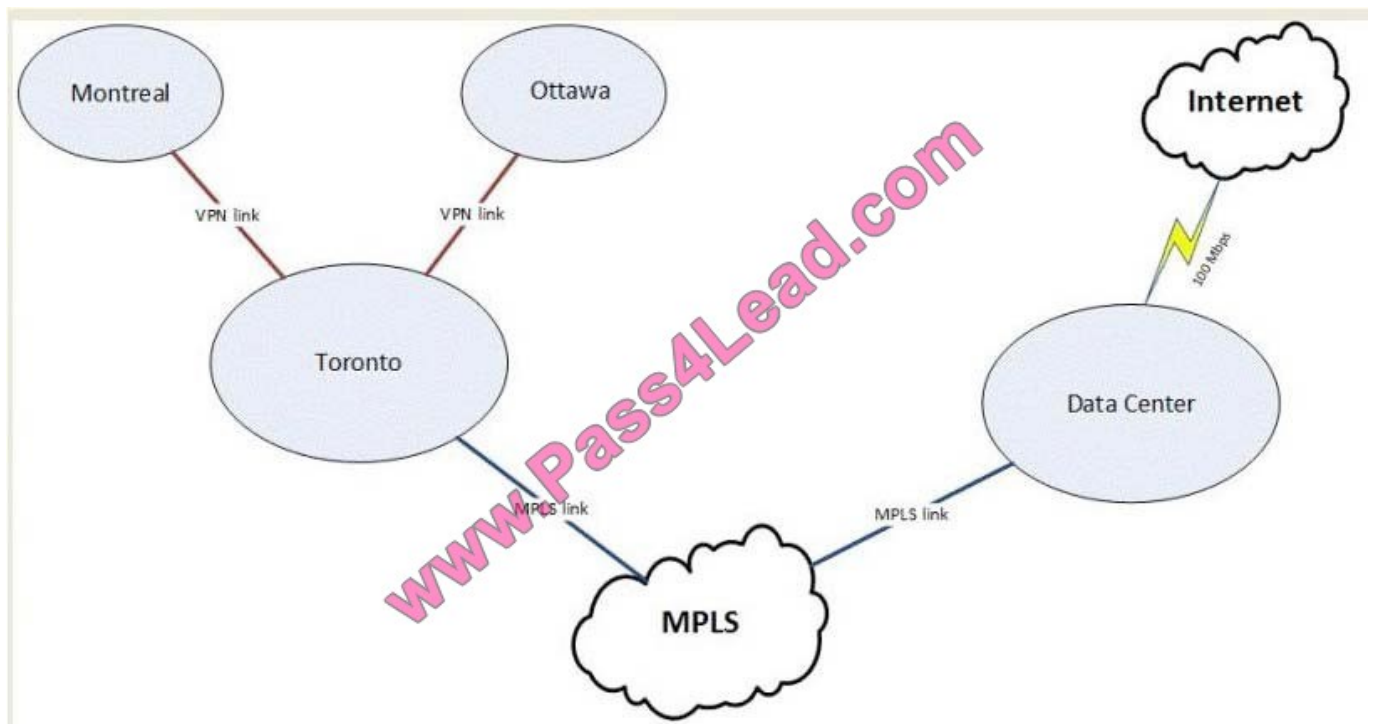

You need to calculate the volume of audio and video conferencing traffic through the Toronto office Multiprotocol Label Switching (MPLS) link.

Which cell or cells in the Lync Bandwidth Calculator should you select to perform this calculation? (To answer, select the appropriate cell or cells in the Lync Bandwidth Calculator.)
