2 / 7

QUESTION 1

You are reviewing the following code that saves uploaded images.

```
struct ImageInfo
{
  public byte[] Data;
  public int Length;
  public Guid Id;
}

void Post()
{
  var uploaded = PostedImage();
  var newImage = new ImageInfo();
  newImage.Data = uploaded;
  newImage.Length = uploaded.Length;
  newImage.Id = Guid.NewGuid();
}
```

For each of the following statements, select Yes if the statement is true. Otherwise, select No. Each correct selection is worth one point.

Hot Area:

Answer Area

Description of Behavior	Yes	No
The bytes that comprise the image are stored on the stack	○	○
The length of the image data is stored on the heap.	○	○
The Id of the image is stored on the stack.	○	○

Hot Area:

Answer Area

Description of Behavior	Yes	No
The bytes that comprise the image are stored on the stack	○	○
The length of the image data is stored on the heap.	○	○
The Id of the image is stored on the stack.	○	○

Correct Answer:

Answer Area

Description of Behavior	Yes	No
The bytes that comprise the image are stored on the stack	○	**◉**
The length of the image data is stored on the heap.	○	**◉**
The Id of the image is stored on the stack.	**◉**	○

QUESTION 2

You are developing a database that other programmers will query to display race results.

You need to provide the ability to query race results without allowing access to other information in the database.
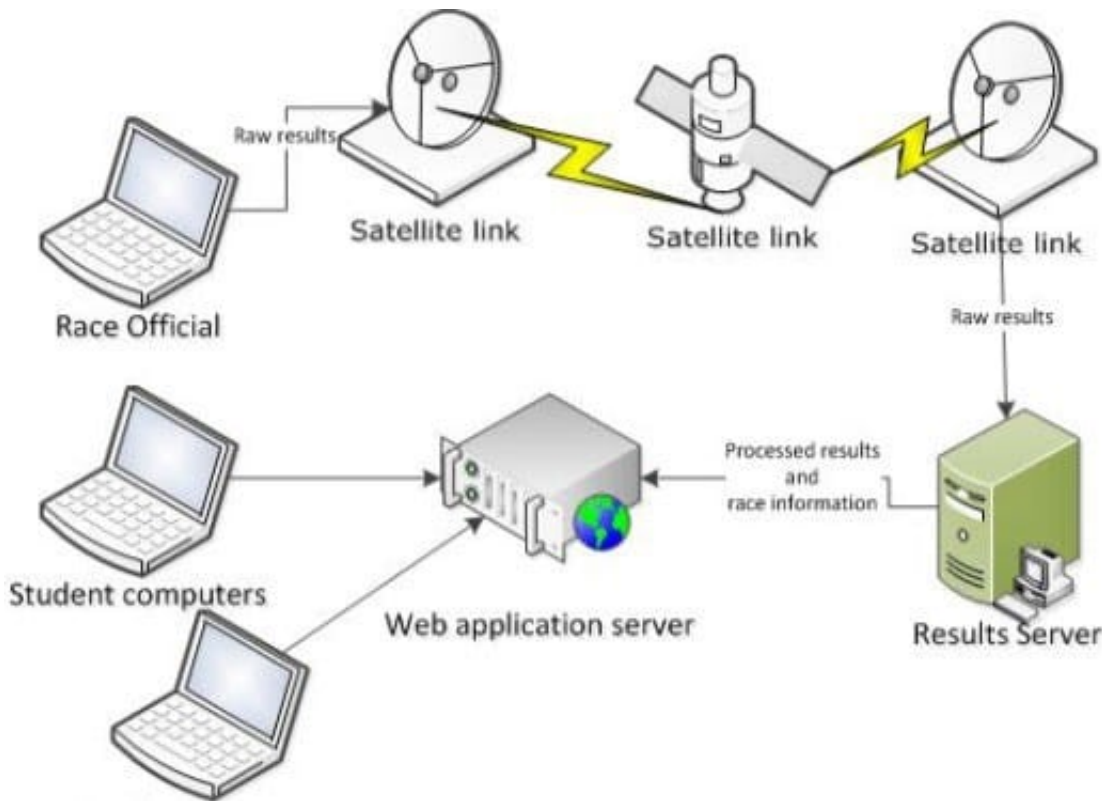

What should you do?

A. Disable implicit transactions.

B. place the query jnt0 a stored procedure.

![Pass2Lead logo](https://Pass2Lead.com)
C. Create an index on the result table.

D. Add an AFTER UPDATE trigger on the result table to reject updates.

Correct Answer: A

QUESTION 3

You are reviewing the architecture for a system that allows race officials to enter the results of 5K race results. The results are then made available to students using a web application. The architecture is shown below:

Use the drop-down menus to select the answer choice that answers each question. Each correct selection is worth one point.

Hot Area:

Hot Area:

Answer Area

To minimize the time between when a race official records the results and when the results are available on the web, which part of the system is critical?

- satellite ink
- student computer
- race official computer
- web application server

To increase the number of students that can access race results, what element should be added to the system?

- satellite link
- race officials
- results servers
- web application servers

Correct Answer:

Answer Area

To minimize the time between when a race official records the results and when the results are available on the web, which part of the system is critical?

- **satellite ink**
- student computer
- race official computer
- web application server

To increase the number of students that can access race results, what element should be added to the system?

- satellite link
- race officials
- results servers
- **web application servers**

QUESTION 4

You execute the following code.

![Pass2Lead](https://Pass2Lead.com)
```
bool beakerFull = true;
bool flameOn = false;
int iResult = 0;
if(beakerFull)
{
    if(flameOn)
    {
        iResult = 1;
    }
    else
    {
        iResult = 2;
    }
}
else
{
    iResult = 3;
}
```

What will the variable result be?

A. 0

B. 1

C. 2

D. 3

Correct Answer: C

QUESTION 5

You run the following code.

```
Dim beakerFull As Boolean = True
Dim flameOn As Boolean = False
Dim iResult As Integer

Select Case beakerFull
    Case True
        Select Case flameOn
            Case True
                iResult = 4
            Case False
                iResult = 3
        End Select
    Case False
    Case flameOn
    Case False
        iResult = 2
    Case True
        iResult = 1
End Select
```

What will the value of the variable iResult be?

A. 1

B. 2

C. 3

D. 4

Correct Answer: C
