**QUESTION 1**

Change the appearance of your displays

Which feature on Windows Phone 8.1 provides secure encryption of all user data stored locally on internal data partitions?

- A. Secure Boot
- B. Encrypted File System
- C. BitLocker
- D. TrueCrypt

Correct Answer: C

The Windows Phone OS supports using BitLocker technology to encrypt all user data stored locally on internal data partitions.

**QUESTION 4**

You manage 200 desktop computers at your school's main computer lab. The computers run Microsoft Windows 10.

A critical update was released.

You need to determine if the update was installed on one of the computers in the lab. What should you do?

A. View the Event Viewer Security log

- B. Check System Status in Control Panel
- C. View Windows update history
- D. Go to the System Action Center

Correct Answer: C

Follow these steps to see which Windows updates are installed on your computer.

1.

Open Windows Update by clicking the Start button Picture of the Start button. In the search box, type Update, and then, in the list of results, click Windows Update.

2.

In the left pane, click View update history.
