QUESTION 1

A company's entertainment website contains the following features:

A homepage with a consistent toolbar and listing of articles by category

A community page

Individual article pages containing a combination of text and images.

End users are able to create new forums, browse article by category, log in using a modal dialog box, and search from the toolbar.

How many AEM templates should the architect create?

- A. Ten
- B. Seven
- C. Five
- D. Three

Correct Answer: B

QUESTION 2

A packaged goods company is migrating its current site to AEM. The company has a presence in the US, but is expanding into two other countries within 12 months of launch on AEM.

During which two tasks should the architect consider this expansion goal? (Choose two.)

- A. Site hierarchy definition
- B. Component development
- C. Workflow implementation
- D. Content migration

Correct Answer: BD

QUESTION 3

An architect is helping a multi-national news company design its project and determine requirements. The functionality requires several external feeds to display breaking news and live scores for major sporting events.

What is the most important factor for the architect to consider when meeting the performance requirements?

- A. The authentication requirements from each feed

- B. The number of JCR nodes each feed item requires
- C. The import frequency of the feed
- D. The payload type in which the feeds are returned

Correct Answer: A

QUESTION 4

A financial institution is identified as a business user. AEM/Campaigns/Segmentation rules must be based on the traits/data provided from the back end of the system.

Which two types of information must be captured in the discovery session? (Choose two.)

- A. Whether any traits are combined to establish a segment
- B. Format in which segmentation traits are retrieved
- C. Keys/values for segmentation traits
- D. How back end service is integrated to retrieve customer data

Correct Answer: BD

QUESTION 5

A client acquires multiple companies that operate autonomously and want to use AEM to host all of their websites.

How should the author users be grouped?

- A. Company-specific groups for workflow approval steps and general groups for content editing
- B. General groups for workflow approval and content editing
- C. Separate company-specific groups for both content editing and workflow approval steps
- D. Default AEM groups for workflow approval and company-specific groups for content editing

Correct Answer: C
