**QUESTION 1**

Which is a driving business need for SOA?

- A. Automate and optimize processes
- B. Security, governance and infrastructure
- C. Governance, infrastructure and connectivity
- D. Interoperability, standards and application integration
- E. High availability of hardware, operational systems and services

Correct Answer: A

---

**QUESTION 2**

Which two statements describe characteristics of SOA?

- A. Multiple business units host the same service to ensure maximum reuse and availability.
- B. Maximum reuse is achieved by ensuring services are generic so that the same service serves many different business tasks.
- C. Existing APIs are exposed over new technologies such as Web services and Enterprise Service Buses (ESB) to increase business flexibility and agility.
- D. Programming by contract ensures the service consumer can be unaware of the implementation details of the service provider facilitating loose coupling.
- E. Through layered abstraction over the implementation and runtime details, it is possible to provide software resources that give the right balance between reuse and specificity.

Correct Answer: DE

---

**QUESTION 3**

When services are identified based on isolated applications rather than the business, which problem may result?

- A. Rogue Services
- B. Duplicate Services
- C. Shelfware Services
- D. Application Services

Correct Answer: B

---

**QUESTION 4**

What can have the largest impact on the performance of an SOA?

- A. Service granularity
- B. Use of open standards
- C. Service version management
- D. Business monitoring of Key Performance Indicators (KPIs)

Correct Answer: A

---

**QUESTION 5**

Which might cause a challenge to prioritizing, defining and funding services in SOA?

- A. Services that support multiple projects and/or lines of business
- B. Services that need to consider non-disruptive roll-out of changes
- C. Services that are based on standards to allow for interoperability
- D. Service requesters that are independent of the service implementation

Correct Answer: A
