QUESTION 1

An industry solution is being installed in an IBM Maximo Asset Management V7.5 (Maximo) environment. During the installation a message is displayed that the product being installed cannot be installed because Maximo has not been found. What is one way to verify if Maximo has been installed?

- A. view the Maximo system information
- B. view the Maximo version with version.bat
- C. view the deployment engine data with listiu
- D. view the deployment engine data with taskrunner

Correct Answer: C

QUESTION 2

Which statement is true regarding the IBM Maximo Asset Management user interface (UI) only Java Virtual Machines?

- A. Disable outgoing Maximo Integration Framework (MIF) and cron tasks.
- B. Disable incoming MIF and cron tasks.
- C. Enable UI functionality in the ejb-jar.xml file.
- D. Disable UI functionality in the ejb-jar.xml file.

Correct Answer: B

QUESTION 3

What is the impact on user performance during the garbage collection process?

- A. Garbage collection increases user performance.
- B. Garbage collection has no impact on user performance.
- C. The application appears frozen during garbage collection.
- D. Garbage collection can only be run while the system is in admin mode.

Correct Answer: C

QUESTION 4

An IBM Maximo Asset Management V7.5 administrator completes the configuration of the Maximo Integration Framework and attempts to execute an import from the EXTSYS1 external system. The import appears to complete without error but when the database is checked the data is not there. The administrator checks the J2EE JMS

sequential inbound queue and can see that the message is there, but it is not being processed. What is the most likely cause the message is not getting delivered to the database?

- A. The external system EXTSYS1 is not active.
- B. The Maximo Java Virtual Machine is not started.
- C. The JMSQSEQCONSUMER.SEQQOUT is not active.
- D. The JMSQSEQCONSUMER.SEQQIN cron is not active.

Correct Answer: D

QUESTION 5

What is needed to implement encryption between the web browser and the IBM Maximo Asset Management V7.5 application?

- A. single sign-on
- B. a proxy server
- C. J2EE server security
- D. Secure Sockets Layer

Correct Answer: D
