QUESTION 1

A preprocessor for e-mail listeners accomplishes which task?

- A. to determine the content to put in the e-mail body
- B. to determine the subject line to place in the e-mail header
- C. to determine whether an incoming e-mail message is a new request
- D. to determine which e-mail account is to be polled for new messages

Correct Answer: C

QUESTION 2

Location types are found in which type of domain?

- A. ALNDOMAIN
- B. MAXDOMAIN
- C. NUMERICDOMAIN
- D. SYNONYMDOMAIN

Correct Answer: D

QUESTION 3

What is an advantage of using Role as a recipient in a communication template?

- A. Roles are reversible where other types of recipients are fixed to a given communication template.
- B. Communication templates always require a role to be used regardless of other assigned recipients even if it is only in the bcc.
- C. A role is the correct recipient when used for a communication template instead of a person group which is used for ownership.
- D. A person or e-mail address used as a recipient requires changes to the communication template when someone else needs to receive it.

Correct Answer: D

QUESTION 4

What are two types of reports that can be registered in the Tivoli process automation engine? (Choose two.)

- A. BIRT
- B. SQR
- C. EXCEL
- D. QUEST
- E. COGNOS

Correct Answer: AE

QUESTION 5

A company has a requirement to create an online interlace between Tivoli process automation engine and their external procurement system. Also the purchasing agent must be able to import Purchase Requests (PRs) and Purchase Orders (POs) when needed. Since the Purchasing Agent does not have access to Integration applications such as External Systems and Enterprise Services, what would be an approach to give the Purchasing Agent the ability to import POs and PRs?

- A. use the Migration Manager application to import P0/PR records
- B. give the Purchasing Agent access rights to the Data load application
- C. configure the application import functionality for Purchasing applications
- D. give the Purchasing Agent access rights only to the End Points application where they will be able to import data

Correct Answer: C
