### QUESTION 1

Josh has been asked to rename a user as well as changing the user's Internet address. Which statement is true?

- A. Josh will need to use the Address Change procedure to change only the Internet address after the rename procedure is completed.
- B. When a user is renamed, Josh cannot change the user's Internet address as part of a change to the user's common or alternate name.
- C. When a user is renamed, Josh can change the user's Internet address as part of a change to the user's common or alternate name, but he cannot use this rename procedure to change only the Internet address.
- D. When a user is renamed, not only can Josh change the user's Internet address as part of a change to the user's common or alternate name, but he can also use this rename procedure to change only the Internet address.

Correct Answer: C

---

### QUESTION 2

Adrian is an administrator of an IBM Domino server and has setup IBM Notes Smart Upgrade. How can he monitor who has upgraded along with any failures?

- A. by using the event logs in the main server log
- B. by using the Smart Upgrade Event Log application
- C. by using the logs in the Smart Upgrade application
- D. by using the Smart Upgrade Tracking Reports application

Correct Answer: D

---

### QUESTION 3

An IBM Domino administrator would like to synchronize IBM Notes client password changes with internet passwords. How can she do this?

- A. a security policy
- B. web single sign-on
- C. Notes Single Logon
- D. Notes Shared Login

Correct Answer: A

---

**QUESTION 4**

David's company wants to append a message disclaimer at the bottom of every outgoing e-mail for legal purposes. What must he do to achieve that?

- A. Create an outgoing SMTP Rule applying the message disclaimer text.
- B. Create a Mail Settings policy document, enter the disclaimer text, and apply to all users.
- C. David must instruct all of his users to modify their e-mail signatures to include the disclaimer text.
- D. Enter the disclaimer text into the Router/SMTP section of the server's Configuration document. Then create a Mail Settings policy document enabling the disclaimer, and apply to all users.

Correct Answer: B

---

**QUESTION 5**

The action component of an SMTP mail rule instructs the server to 'change routing state'. If triggered, what will happen?

- A. The router relays the e-mail to a specified server.
- B. The e-mail is held within the mail.box, pending further action by the administrator.
- C. The importance of the e-mail will be adjusted to Low, Normal, or High, depending on the setting configured within the rule.
- D. The delivery priority of the e-mail will be adjusted to Low, Normal, or High, depending on the setting configured within the rule.

Correct Answer: B
