QUESTION 1

Max has an application that her company's Chicago office uses on their Chicago server. She would like her company's Boston office to access the same application on their Boston server but needs for changes to each application to be kept in sync. How should Max create the application on the Boston server?

- A. Max should create a new copy of the application on the Boston server.
- B. Max should create a new replica of the application on the Boston server.
- C. Max should create a new application based off the template on the Boston server.
- D. Max should create a new application based off the Single Copy Template on the Boston server.

Correct Answer: B

QUESTION 2

Which statement is true when implementing message disclaimers in IBM Notes and Domino?

- A. If message disclaimers are enabled for the server, but disabled for the client, message disclaimers will be added to all mail messages.
- B. If message disclaimers are enabled for the server, but disabled for the client, message disclaimers can only be added to mail messages from the client.
- C. If message disclaimers are enabled for the server, but disabled for the client, message disclaimers can only be added to mail messages from the server.
- D. If message disclaimers are enabled for the client, but disabled for the server, message disclaimers can only be added to mail messages from the server.

Correct Answer: C
