QUESTION 1

Earl would like to access his mail file locally versus on his mail server. He is considering creating a local replica or managed mail replica for his mail file. Which benefit does Earl gain if he uses managed mail replica instead of local replica?

A. The managed replica routes mail directly to the server\\'s mail.box.

B. If the managed replica becomes corrupt, it will be deleted and recreated automatically.

C. The managed replica will use the server replica\\'s full-text index instead of having one locally created.

D. A managed replica will notify Earl when new mail arrives, but he\\'ll have to replicate manually or on schedule.

Correct Answer: B

QUESTION 2

What option would James use to change the color of unread mail in the Inbox?

A. go to $Inbox folder > right-click to open folder properties > click style tab and select desired color next to unread

B. IBM Notes displays unread messages as bold, there are no color options

C. Click File > Mail, and then select "Display Unread messages in Bold Red"

D. Select More Action from the Inbox and select "Display Unread messages in Bold Red"

Correct Answer: A
