QUESTION 1

Which of the following best describes the role of a reject stage:

- A. When an item is rejected, a reject stage can be triggered that executes pre-defined actions. Once the actions have been executed, the item is returned to the first stage of the workflow.
- B. When an item is rejected, a reject stage can be triggered that executes pre-defined actions. Once the actions have been executed, the item is returned to the previous stage of the workflow.
- C. When an item is rejected, a reject stage can be triggered that executes pre-defined actions. Once the actions have been executed, the item is returned to the first stage of the workflow and the content author is notified.
- D. When an item is rejected, a reject stage can be triggered that executes pre-defined actions. Once the actions have been executed, the item is returned to the stage specified in the reject stage.

Correct Answer: A

QUESTION 2

All of the following examples can be used to retrieve an IBM WebContent Manager workspace item except:

- A. `webContentService.getRepository().getWorkspace((Principal) portletRequest.getUser());`
- B. `webContentService.getRepository().getSystemWorkspace();`
- C. `webContentService.getRepository().getWorkspace("my username", "my password");`
- D. `webContentService.getRepository().getSystemWorkspace("my username", "my password");`

Correct Answer: D

QUESTION 3

An IBM Web Content Manager administrator has created a new content library, but does not see the library in the Web Content Manager Authoring Portlet.

Which of the following reasons would best explain why this would occur?

- A. The administrator forgot to grant himself/herself the contributor role to the content library.
- B. The administrator forgot to set access control at the content root level, thereby resulting in no access being allowed.
- C. The content library is not listed as one of the '\\Selected Libraries\\' in the Web Content Manager Authoring Portlet settings.
- D. Only content libraries which have at least one content item will appear.

Correct Answer: C

QUESTION 4

To migrate existing content from IBM Web Content Manager version 7.0 to version 8.0, what database domain must be copied from version to version?

- A. Likeminds Database
- B. Customization Database
- C. Community Database
- D. JCR Database

Correct Answer: D

QUESTION 5

The marketing department at Acme Marketing uses the Press Release authoring template to create press releases. Staff often forget to include the contact email address for the author of the press release.

How can Bob, the web content developer, ensure that the authors always include a contact email address?

- A. In the properties for the contact email element, select the Identify this as a required field check box.
- B. Add the appropriate validation JSP component to each element in the Identify this as a required field.
- C. Select the Require input for all fields check box in the first workflow stage for this type of content.
- D. Create a workflow stage and assign reviewers of the content. The reviewers are responsible for rejecting content that does not include an email address.

Correct Answer: A
