QUESTION 1

While deploying the ID vault for your organization, you implemented the ability for helpdesk personnel to reset user passwords through the Domino Administrator client. You selected the group for easier management. Which of the following occurs when users are added and removed from the group?

- A. The administrator must manually issue certificates to all users
- B. The ID vault will request password verification before issuing and removing password reset certificates
- C. People leaving the group retain password reset certificates, and new users to the group do NOT receive certificates
- D. People leaving the group do NOT retain password reset certificates, and new users to the group receive certificates

Correct Answer: C

QUESTION 2

To remove an ID vault from a Domino server, you must be a vault administrator, have Editor Access to the Domino Directory, and which of the following?

- A. Have access to the vault ID file and password
- B. Have Manager rights to the Administration Process database
- C. Have the ability to delete user policy documents from the Domino Directory
- D. Have physical access to the operating system to complete the removal process

Correct Answer: A

QUESTION 3

One of your Lotus Traveler users has misplaced a mobile device. You cannot delete this person's Internet password, as it is used for Domino Web Access, nor can you delete the person record for this person. Which of the following will still allow the user to utilize Domino Web Access and NOT Lotus Traveler?

- A. Remove the Lotus Traveler policy for the user
- B. Place the user in a secondary directory on all the servers
- C. Place the user in the "Not access server" field in the server document
- D. Place the device ID in the restricted access field in the Lotus Traveler configuration database

Correct Answer: C

QUESTION 4

The following command was issued by a Domino administrator on the Lotus Traveler server: tell traveler log remove user. Which of the following occurs after this command is issued?

- A. It removes the user policy from the assigned device
- B. It removes all users from the list of users that are logging
- C. It logs the removal of all users from the Lotus Traveler server
- D. It removes the individual log of each user's synchronization history

Correct Answer: B

QUESTION 5

When a user removes a mail message with an attachment stored in DAOS, which of the following occurs if the user is assigned a mail quota?

- A. The total attachment size is removed against the user's quota
- B. The total size of the mail message and attachment is removed against the user's quota
- C. The total size of any attachment stored in DAOS does not count toward the user's quota
- D. The total size of the mail message without the attachment is removed against the user's quota

Correct Answer: A
