QUESTION 1

Cindy wants to edit her style sheet resource using a third-party tool. Which one of the following should Cindy do?

- A. From the Resources>Style Sheets view, select the style sheet and choose Open With, then identify her preferred editor.
- B. From the Resources>Style Sheets view, select the style sheet and choose Open With>External Editor, then identify her preferred editor.
- C. From the Resources>Style Sheets view, select the style sheet and choose Open With>Thirdparty Tool, then identify her preferred editor.
- D. From the Resources>Style Sheets view, select the style sheet and choose Export to save the style sheet to the file system, then open it in her preferred editor. After making her changes, she will need to choose Sync to bring the changes into the application.

Correct Answer: B

QUESTION 2

When Eduardo tried to save a document, he got the following error message: Incorrect data type for operator or @Function: Text Expected.

Which one of the following did he most likely do to cause this to happen?

- A. He combined a text and a time field in a formula.
- B. He neglected to place a formula in a validation event.
- C. He neglected to place a formula in a translation event.
- D. He entered text in a number field.

Correct Answer: A

QUESTION 3

Bernhard is having trouble with an application, and he wants to allow users to save their work while they are editing.

What does he need to do?

- A. Select the "Autosave document" in the document properties
- B. Select the "@Allow Auto Save" in the document properties
- C. Nothing; Notes autosaves any document in Edit mode in Notes 8.5 by default
- D. Create a timer event, and save the document periodically through UiDocument.Save

Correct Answer: B

QUESTION 4

Linda would like to build a notification dialog box for the user of the Update Checkout agent. When the agent is done, it should tell the user how many video documents were updated.

What is the command she should use for this feature?

- A. Print "The agent processed" and i and "documents", MB_OK + MB_ICONINFORMATION, "Agent Completed"
- B. Print "The agent processed" and i and "documents", MB_OK , "Agent Completed"
- C. MessageBox "The agent processed" and I and "documents", MB_OK, "Agent Completed"
- D. MessageBox "Agent Completed, MB_OK : MB_ICONINFORMATION, "The agent processed" and I and "documents"

Correct Answer: C

QUESTION 5

Menno has hidden the design of a database and finds out later that most of the design elements have the "prohibit design refresh or replace to modify this element" flag set.

How can he undo this?

- A. He cannot; hidden design is hidden forever.
- B. He can simply replace the design with a blank template, and then replace again with the corrected template.
- C. He needs to go into the design and untag each and every element manually, and then simply replace the design with the updated (new) template once more to update with the last changed.
- D. He needs to create an agent that uses the LotusScript Design classes to remove every design element in the database , and afterward use the corrected template to replace the whole design once more.

Correct Answer: D
