B. Views

C. Themes

D. Custom controls

Correct Answer: B

QUESTION 3

Jackson is using the FTSearch method of the NotesDatabase class to to return a NotesDocumentCollection. Jackson notices that the NotesDocumentCollection does not contain all the documents that he would expect. What would cause this issue?

A. Jackson did not set the MaxDocs parameter on the FTSearch method to All to return all valid documents.

B. Jackson did not set the MaxDocs parameter on the FTSearch method to 0 to return all valid documents.

C. The maximum number of documents returned by FTSearch is 5,000 documents.

D. The maximum number of documents returned by FTSearch is 2,000 documents.

Correct Answer: C

QUESTION 4

Marge wants to track user preference information while users navigate through her Web site, but does not want to

require users to authenticate when accessing the site. Which of the following should she use to track the user information?

A. Cookies

B. Servlets

C. User profile documents

D. The users must authenticate

Correct Answer: A

QUESTION 5

Marcel puts an XPage together, which is used for registration of users. He plans to use three different buttons: Newsletter, Forum, or Cancel. Each button should load a different next page. How can this task be accomplished?

A. Using the Open Next Page Simple action, simply select each button for the next page.

B. There is no way to accomplish this task. After pressing any submit button an XPages application always returns to the home page.

C. For each button, define server-side JavaScript that returns the name of the page to be loaded. Define a navigation rule in the XPagesproperties for each value.

D. To achieve this task, you have to write your own Java servlet and install it to all the servers and clients, so that your application can run. Thenyou can trigger your servlet to produce the page for each button.

Correct Answer: C
