**QUESTION 3**

While installing the IBM Sterling Selling and Fulfillment Suite in the GUI mode, the installation fails with an error indicating a user permission issue on the database schema. On researching the issue, it is discovered that the user has not been granted "CREATE TABLE" permission on the schema. The database administrator who can provide access is not accessible until the end of the week. Which statement is true regarding the application installation procedure?

- A. The installation has to be rerun from the beginning after the permission has been granted to the user.
- B. The IBM Sterling Selling and Fulfillment Suite should be re-installed with the option to use the database bundled along with it.

C. The installation can be run in a mode such that it does not connect to the database and the database scripts can be run later when the permission issue is resolved.

D. Since the issue is only a permissions issue, the installation can be run with a parameter in the silent file so it would ignore such errors and complete the installation successfully.

Correct Answer: C
