Correct Answer: A

---

#### QUESTION 3

Where is a LSX uploaded to IBM Security QRadar SIEM V7.1 to be used by a UDSM in the Admin Section?

- A. Log Source Extensions> Add
- B. Log Sources> Add > Extensions
- C. System Settings> Extensions > Add
- D. Systems and License Management> Add > Extensions

Correct Answer: A

---

#### QUESTION 4

When creating a new IBM Security QRadar SIEMV7.1 user account, the administrator did not give access to the log source group (called MS Domain Security Logs) that contains Microsoft Security Event logs. What happens if the user attempts to run a shared saved search for failed login attempts to a domain?

- A. The user is not able to see any results from that search.

- B. Since the user is part of the domain, they are able to see the data in the search results.
- C. The user is notified that they do not have the proper permissions to run that search and are requested to contact their administrator.
- D. The search will run but since the user was not given access to the MS Domain Security Logs group, the user cannot see results from those log sources contained in that group.

Correct Answer: D

---
