QUESTION 1

An analyst needs to find and isolate any entities that are within two links (or a depth of two) of the target. Which of the following Analysis tools can accomplish this?

- A. Find Path
- B. List Items
- C. Find Linked
- D. List Linked Items

Correct Answer: C

QUESTION 2

Review the following screenshot of an import, where blank values have been detected:

Row	First Name	Gender	Home Street Address
2	Ernest	Male	123 Hemming Way
3	Kate	Female	
4	Burt	Male	2468 Sesame Street
5	Muffy	Female	456 Drury Lane
6	Jennifer	Female	
7	Jerry	Male	789 Rocky Road
8	George	Male	1379 Abbey Road

Below the table is a toolbar with the following options: Add New Entity, Add New Link, Delete, and several icons for entity management. Below the toolbar is a diagram showing a relationship between two entities: a question mark icon labeled [First Name] and a house icon labeled [Home Street Address]. A line connects them with the text "(same as Type)". A warning icon is present next to the [Home Street Address] label.

Which of the following is NOT an option to address the warning message?

- A. Do not create the entity.
- B. Create the entity with a blank identity.
- C. Create the entity and assign a specified identity.
- D. Create the entity and assign each identity individually.

Correct Answer: D

QUESTION 3

Which analysis tool will help discover entities that have been accidentally added more than once to a chart?

- A. Find Text
- B. Visual Search
- C. Find Linked Entities
- D. Find Matching Entities

Correct Answer: D

QUESTION 4

An intelligence analyst has been given an association chart with telephones and telephone call links. The analyst would like to see the calls placed in time and date order, so the analyst decides to change the chart into a timeline. How can the analyst change the telephone entities on the chart?

- A. Change the Entity Type to Theme Line
- B. Change the Entity Type to Event Frame
- C. Change the Entity Representation to Theme Line
- D. Change the Entity Representation to Event Frame

Correct Answer: C

QUESTION 5

An intelligence analyst needs to create a custom Conditional Formatting specification that displays any link over \$6,000.00 in red.

Using the example data below as a guide (where the number on the link is the dollar amount), which of the following should be selected if an analyst wants to change the color of a link in Conditional Formatting?

- A. Type
- B. Width
- C. Visibility
- D. Strength
- E. Font Style

Correct Answer: A
