**QUESTION 1**

An EMC NetWorker customer has several clients configured in their datazone. Some of the physical clients have multiple client resources configured for them. How many EMC NetWorker Client File Indexes exist per client and where are they stored?

- A. One per physical client host, stored on the NetWorker server
- B. One per client resource, stored on the NetWorker server
- C. One per physical client host, stored on the client host machine
- D. One per client resource, stored on the client host machine

Correct Answer: A

---

**QUESTION 2**

A customer plans to deploy deduplication in an EMC NetWorker environment. For data backed up to the deduplication node, where is the metadata in the form of hashids sent?

- A. Storage node
- B. Client File Index
- C. Utility node
- D. Deduplication client

Correct Answer: A

---

**QUESTION 3**

An EMC Data Domain customer requires the usage of physical tape for long-term storage. How are backups moved from the Data Domain system to physical tape?

- A. Storage node reads data from the Data Domain system and writes it to physical tape
- B. Backup server instructs the Data Domain system to perform the operation
- C. Data Domain system moves virtual tape contents to the physical library using one of the back-end ports based on a schedule
- D. Data automatically flows to the physical tape when the Data Domain system is full

Correct Answer: A

---

**QUESTION 4**

A new customer has a complex IT environment consisting of many large database applications and file servers. They require the ability to configure and schedule their backups from one centralized management interface including snapshot

and replication support.

Which EMC product would you recommend?

- A. NetWorker
- B. Avamar
- C. Data Domain
- D. Data Protection Advisor

Correct Answer: A

---

#### **QUESTION 5**

What is the access mode of the EMC Avamar server during the checkpoint maintenance activity?

- A. Read-only at the start of the maintenance activity
- B. Read-only at the end of the maintenance activity
- C. Read-only throughout the maintenance activity
- D. Read/write throughout the maintenance activity

Correct Answer: A
