QUESTION 1

What does the 4-port Converged SAN Controller provide in the HP MSA 2040?

A. IP ports for Asynchronous and Synchronous replication

B. SFP modules support for FC and iSCSI

C. Support for FCoE direct connect

D. 6GB SAS and 16GB FC Combo support

Correct Answer: B

The HP MSA 2040 can also replicate data between arrays (P2000 G3 and/or MSA 2040 SAN Model only using FC or iSCSI protocol) with the optional Remote Snap feature.

QUESTION 2

The IT manager of a company wants their NAS storage system that uses deduplication to be more efficient. Which NAS system meets this requirement?

A. HP StoreOnce with catalyst

B. HP 3PAR StoreServ with Thin Provisioning

C. HP MSA 2040 with snapshot technology

D. HP StoreEasy with Windows Storage Server

Correct Answer: D

HP X3000 G2 Storage boosts the value of your array or SAN by adding Windows Storage Server-powered, IP-based gateway services to it.

QUESTION 3

A customer gas transaction-based application running on three blade servers that require very High I/O performance exceeding 75,000 IOPs. The customer has an HP BladeSystem c7000 with Flex-10 Virtual Connect and 16 HP ProLiant BL460 Gen8 servers with no externally attached storage because their storage capacity requirements are extremely low?

Which solution would achieve greater performance with minimal disruption for this customer?

A. Add an HP IO Accelerator mezzanine card to the blade servers

B. Add an HP X1800sb Network Storage Blade and attach it to the servers

C. Add a SAS attached D2700 Disk Enclosure to the environment with 8 SSD drives

D. Add additional HDD drives to the existing blade servers in a RAID 50 stripe set

Correct Answer: B

QUESTION 4

A regional market leader in direct financial services runs several call center across the United States and is opening a number of new call center in the near future. The client uses Windows XP on dedicated workstations. The IT infrastructure consists of numerous HP Proliant DL360 G5 and HP Proliant DL360 G6 servers running VMware ESX or SUSE Linux for the database server direct-attached storage and HP Ultrium tape drives. They want to consolidate the infrastructure.

You are meeting with the IT director. Which technical benefits should you emphasize in your presentation of a new solution? (Select two)

A. faster time-to-market for new services

B. decreased operational expenditure (OPEX)

C. decreased rack space and power usage

D. greater service margin

E. reduced time-to provision systems

Correct Answer: BE

http://h20195.www2.hp.com/V2/GetPDF.aspx%2F4AA0-0559ENW.pdf Simplify your data center; make it more flexible, efficient, and less expensive to operate. Tom Joyce, GM and SVP HP Converged Systems, explains how HP Converged Infrastructure can turn your IT into a business advantage.

QUESTION 5

Scenario Following the merger of two financial companies, management is considering combining the two distinct customer call centers into a single physical location. In addition to the overall call center headcount increasing by 30%, the support for two distinct customer bases presents the potential of having two different desktop PCs on the desk of each call center employee. Instead of correspondingly increasing IT support headcount to manage the single, larger call center and call center infrastructure, management believes they can reduce the required time to support call center operations by 40% if they employ virtual desktop technology.

An initial assessment has identified the need for a centralized storage solution that could support 500 virtual desktops running a variety of applications that can scale quickly to accommodate an expected increase in call center staff. The customer is already an HP Blade System customer using HP Virtual Connect Flex-10.

Some of the additional business criteria identified in customer planning interviews includes:

Use client virtualization for the desktops.

Achieve the highest possible density and performance for the virtual desktops,but keep the virtual desktop storage traffic off the network due to a current, existing limitation of only 1GbE.

Do not use standalone, network-attached storage.

Limit the impact of additional rack space.

![Pass2Lead](https://Pass2Lead.com)
Minimize the risk of additional help-desk tickets.

Present multiple solutions, prioritized with a recommendation.

Refer to the scenario.

The customer is concerned about data migration from their third-party storage array to a new solution. How do you solve this concern.

A. Focus on an HP StoreServ 7000 Storage solution to use the online import from data migration.

B. Advise a new backup and recovery concept using HP StoreOnce Backup Systems to avoid data loss.

C. Present Hyper Visor storage migration functionalities to migrate data online.

D. Include HP Virtual Connect FlexFabric modules in the design to keep all migration paths open.

Correct Answer: C

Present HyperVisor storage migration functionalities to migrate data online
