QUESTION 1

You are a consultant and are regularly hired by the Ministry of Defense to perform analysis. Since the assignments are irregular, you outsource the administration of your business to temporary workers. You don't want the temporary workers to have access to your reports. Which reliability aspect of the information in your reports must you protect?

- A. Availability
- B. Integrity
- C. Confidentiality

Correct Answer: C

QUESTION 2

You are the owner of the courier company Speedelivery. On the basis of your risk analysis you have decided to take a number of measures. You have daily backups made of the server, keep the server room locked and install an intrusion alarm system and a sprinkler system. Which of these measures is a detective measure?

- A. Backup tape
- B. Intrusion alarm
- C. Sprinkler installation
- D. Access restriction to special rooms

Correct Answer: B

QUESTION 3

An airline company employee notices that she has access to one of the company's applications that she has not used before. Is this an information security incident?

- A. Yes
- B. No

Correct Answer: B

QUESTION 4

You apply for a position in another company and get the job. Along with your contract, you are asked to sign a code of conduct. What is a code of conduct?

- A. A code of conduct specifies how employees are expected to conduct themselves and is the same for all companies.
- B. A code of conduct is a standard part of a labor contract.

C. A code of conduct differs from company to company and specifies, among other things, the rules of behavior with regard to the usage of information systems.

Correct Answer: C

QUESTION 5

A non-human threat for computer systems is a flood. In which situation is a flood always a relevant threat?

- A. If the risk analysis has not been carried out.
- B. When computer systems are kept in a cellar below ground level.
- C. When the computer systems are not insured.
- D. When the organization is located near a river.

Correct Answer: B
