**QUESTION 1**

You are a project manager for Contoso Ltd, an e-commerce company. Contoso's Microsoft Dynamics implementation project is in the deployment phase, and you are planning the user acceptance testing.

Which action should be the focus of the testing?

- A. testing the performance to ensure the system can handle the predicted peak time transaction volumes
- B. testing that the system supports the company's transaction data
- C. testing data migration
- D. testing the end-to-end system to ensure the system supports the company's transactions

Correct Answer: D

QUESTION 2

You must complete a Requirements and Process Review during an engagement. What should you identify and document at the completion of the exercise?

- A. implementation approaches and associated costs
- B. customer requirements and business processes within the scope
- C. degree of fit to the business
- D. infrastructure and hardware requirements

Correct Answer: B

QUESTION 3

Which two characteristics describe the agile project type? (Each correct answer presents part of the solution. Choose two.)

- A. starts with preparation and execution
- B. starts with analysis, design, and development
- C. sequential
- D. iterative

Correct Answer: BD

B: The Agile Project type has Sprint cycles to encompass the Analysis, Design and Development phases.

D: A flexible and iterative approach to development, which is where the Agile Project type is ideally suited.

QUESTION 4

You are a project manager working with a client who has specific feature needs, moderate to complex customizations, and minimal business process mapping completed. You need to recommend a project type for the client. Which project type should you recommend?

- A. agile
- B. enterprise
- C. standard
- D. rapid

Correct Answer: A

QUESTION 5

You are responsible for using the Sure Step Project Creation Wizard to create projects that involve multiple products, Decision Accelerators, and project types. Which constraint do you need to consider?

- A. A project can contain multiple Decision Accelerators.
- B. A project can contain multiple products.
- C. A project can be associated with multiple project types.
- D. The project repository can only contain 100 active projects at a time.

Correct Answer: A
