QUESTION 1

RandD fixed an issue with Modeler integration in Deployment Manager client. A Fix Pack has been released. For which product and which fix should the customer look on Fix Central?

A. Product: CandDS; Fix Pack for CandDS Server

B. Product: CandDS; Fix Pack for CandDS Adapter

C. Product: Modeler; Fix Pack for Modeler Server

D. Product: Modeler; Fix Pack for Modeler Adapter

Correct Answer: D

QUESTION 2

A customer created a parallel CandDS installation on a separate server, using a copy of the production repository database. She can login to the repository, objects are being displayed, but most jobs fail to run and cannot be edited. What could be a likely cause?

A. During the installation, the customer chose to Discard Existing Data data rather than Preserve Existing Data.

B. Application server has not been started.

C. The save/restore process only migrated part of the content repository data.

D. Additional packages, existing in the production environment, have not been reinstalled after installation of the parallel environment.

Correct Answer: D

QUESTION 3

A customer wants to automate the rerun of a CandDS job each time a Modeler stream in one of the jobsteps is updated. How can this be achieved?

A. A message-based job schedule can run a job, based on a notification message sent at the update of the Modeler stream.

B. This can only be achieved through a time based schedule if the Modeler stream is updated at fixed times.

C. CandDS does not allow this kind of dependency

D. Define a "loop" connector between the Modeler jobstep and the job.

Correct Answer: A

QUESTION 4

To display information such as version number and installed packages for the current CandDS installation, an administrator can click on the About entry within the Browser-based Deployment Manager. Which URL format should an administrator enter if she wanted to log into the Browser-based Deployment Manager?

A. http://:/admin/console

B. http://:/security/login

C. http://:/admin/login

D. http://:/security/admin

Correct Answer: B

QUESTION 5

To enable collaboration of Modeler with CandDS, where should the Modeler adapters be installed?

A. On the server hosting the Modeler Server

B. On the server hosting the CandDS Server

C. On both Modeler Server and on the CandDS server

D. On the Modeler client

Correct Answer: B
