QUESTION 1

Which ICA component generates Facets?

- A. Crawlers.
- B. Search Servers.
- C. Indexer.
- D. All of the above.

Correct Answer: C

QUESTION 2

When you configure a collection, you can enable the system to automatically detect Terms of interest. Of the following statements, which one is INCORRECT?

- A. Terms of interest are only valid for text analytics collections.
- B. Similar to the Named Entity Recognition annotator, Terms of interest is only supported by a subset (EN, ES, DE, FR, JA) of the languages supported in ICA.
- C. Terms of interest are the relationships between nouns and nearby verbs and adverbs in the text.
- D. You can enhance the content analytics by including nouns identified in the terms of interest in a custom user dictionary.

Correct Answer: B

QUESTION 3

Flexible node assignment allows you to create an additional server that will perform which two functions?

- A. Crawler and document processing.
- B. Crawler and parser/indexer.
- C. Crawler and search.
- D. Document processing and search.

Correct Answer: D

QUESTION 4

Which of the following statements is TRUE regarding optional facet index?

- A. Optional Facet Index should be considered for small collections.
- B. By default, Optional facet index is enabled.
- C. Optional facet index can be quickly generated by adding additional index servers.
- D. Long building time is required for creating optional facet index.

Correct Answer: D

QUESTION 5

With regards to boost word dictionaries, all of the following are true EXCEPT for:

- A. The boost factor can range from -10 to +10, and the values -1, 0, and 1 have no boost effect.
- B. You can define specific terms or multi-word terms that raise or lower the rank value of the document in which the term appears.
- C. You specify boost words in an XML file, and then convert the XML file to a boost word dictionary.
- D. Boost word dictionaries are language dependent.

Correct Answer: D
