QUESTION 1

CDC guarantees data integrity by using two-phase commit operation between _____.

- A. source tables and source metadata
- B. target tables and target metadata
- C. source tables and target Tables
- D. source metadata and target metadata

Correct Answer: B

QUESTION 2

Which of the following sets of user roles is supported in CDC?

- A. System Administrator, Administrator, Operator and Monitor
- B. System Administrator, Database Administrator, Operator and Monitor
- C. System Administrator, Administrator, Replication User and Monitor
- D. System Administrator, Database Administrator, Replication User and Monitor

Correct Answer: A

QUESTION 3

How is Zero Latency replication capability architected in CDC?

- A. Zero Latency replication capability is natively built in to all IBM replication products.
- B. Zero Latency replication capability is possible, if plenty of system resources (CPU, memory, bandwidth etc) are allocated to CDC.
- C. Zero Latency replication capability is built into the Advanced and Ultimate editions of CDC that can be purchased for an additional licensing fee.
- D. Zero Latency replication is possible only when every component participating in the overall replication solution is tuned for best performance. Therefore IBM will not provide explicit guarantees for Zero Latency while selling CDC to its customers.

Correct Answer: D

QUESTION 4

The Monitoring tab in Management Console allows users to _____.

- A. view Subscription Status, Replication Statistics, and Event Logs
- B. display Latency and Replication Diagrams
- C. setup Alerts and Notifications
- D. All of the above.

Correct Answer: D

QUESTION 5

Assuming the "Auto Start" option is enabled, what happens when the CDC subscription feeding to DataStage is stopped by the CDC user?

- A. DataStage job waits until the CDC subscription is restarted
- B. DataStage job receiving updates from the CDC subscription ends automatically
- C. DataStage job receiving updates from the CDC subscription generates error message
- D. DataStage job crashes with core dump

Correct Answer: B
