### QUESTION 1

Select two correct descriptions about views.

- A. A view is created by `DECLARE VIEW`, and deleted by `DROP VIEW`.
- B. A view is a virtual table which does not exist.
- C. A view is created to simplify complicated queries.
- D. You can create a view with the same name as already existing tables.
- E. A view only exists while the postmaster is running, and is deleted when the postmaster stops.

Correct Answer: BC

---

### QUESTION 2

What does the following command do? Choose one incorrect statement from the selection below. `$ pg_dumpall -U postgres > 20060601.bak`

- A. Backup all the databases in a database cluster.
- B. Backup `postgresql.conf` along with databases.
- C. Backup with plain-text format.
- D. Backup user and group information along with databases.
- E. You can access databases while the backup is in process.

Correct Answer: B

---

### QUESTION 3

I would like to set the default character encoding for the client to Unicode. Select the most appropriate configuration parameter in `postgresql.conf` from those below.

- A. `backend_encoding = UNICODE`
- B. `frontend_encoding = UNICODE`
- C. `client_encoding = UNICODE`
- D. `default_encoding = UTF8`
- E. `encoding = UTF8`

Correct Answer: C

---

**QUESTION 4**

The table "tbl" is defined below such that it could only store non-negative integers in the column "nn". Select the keyword that is applicable for the underlined blank. CREATE natural\_number AS DECIMAL CHECK (VALUE >= 0);  
CREATE TABLE tbl(nn           );

- A. VIEW
- B. SCHEMA
- C. RULE
- D. TYPE
- E. DOMAIN

Correct Answer: E

---

**QUESTION 5**

Choose the most suitable statement about user management of PostgreSQL. Note: the version of PostgreSQL is 8.0.

- A. Usernames not registered in the operating system cannot be registered as PostgreSQL users.
- B. To create a new user for PostgreSQL, the "newuser" command is used.
- C. PostgreSQL cannot be in a state where multiple users exist at the same time.
- D. If you create a user that has permission to create other users, that user will become a superuser that is not subject to any access restriction checks.
- E. To delete an existing user for PostgreSQL, "deleteuser" command is used.

Correct Answer: D
