A. RAID 0

B. RAID 1

C. RAID 5

D. RAID 10

Correct Answer: C

**QUESTION 3**

Which of the following stripes data at the bit level and uses a dedicated disk for parity?

A. RAID 0

B. RAID 3

C. RAID 5

D. RAID 10

Correct Answer: B

**QUESTION 4**

A technician needs to deploy a new Internet facing web server and internal database server. The web server will use the database backend to retrieve shopping cart information. Which of the following configuration utilizes the LEAST

resources?

A. Both servers will be virtualized on the same host server. The web server will be configured with an Internet facing NIC connected to the host\\'s hardware NIC and a backend NIC connected to a virtual switch. The database server NIC will be connected to the same virtual switch.

B. The database server will be created on the existing virtual farm and configured with one physical NIC. The web server will be installed on new hardware and will utilize two physical NICs to separate backend traffic from frontend Internet communication.

C. The web server will be created on the existing virtual farm and configured with two physical NICs, one NIC for backend and one for backend communication. The database server will be installed on new hardware to ensure maximum performance.

D. Both servers will be virtualized on a pair of redundant host servers. Both the web server and the database server will share the same hardware resources. The web server will be configured with one NIC for both frontend and backend communication and the databases server will also have one NIC.

Correct Answer: A

**QUESTION 5**

Which of the following is used for managing users in a client/server environment?

A. LDAP

B. DNS

C. Web

D. Proxy

Correct Answer: A
